# CLASS OF 1989

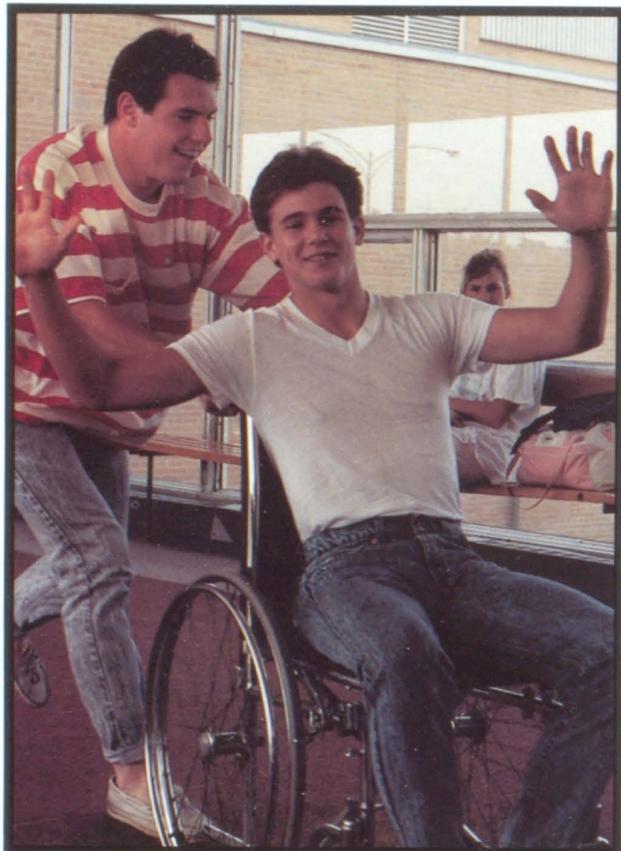

### PUTTING THE PIECES TOGETHER

Somehow each day, we teenagers are able to put all the pieces together so that we are whole people, ready to take on the world. Right now that means fitting academics, sports, after-school activities, social life, family and employment into our full schedules. But still we do it, and do it well, just like we did in this 1989 edition of the LAN-CER. All the pieces are represented and hopefully, now that our puzzle is complete, you'll see the best the eighties had to offer. I give you, the Class of 1989.

## Senior Year, It's About Time

It took us four long years, but we've finally made it! Senior Year! The year we RULE the school, the year we've been looking forward to since we first set foot in the world-famous glass hall. Now it's here and somehow it seems most of our time is spent preparing for after high school (Is there life after high school? We will soon find out!) Filling out applications to the "college of our choice," hoping we get in, and wishing we were anywhere else but here.

But that's only a part of it. There are many privileges that come with being a senior, starting with Homecoming, Spring Break, (YEAI) Prom and last but not least, GRADUATION.

With a new year comes changes, the senior class seems to be getting closer. Doesn't it seem that 90% of Kimball is now freshmen? It also seems that we knew a lot more people when we were underclassmen. It seems like just yesterday we were afraid to walk down the glass hall alone for fear of unfriendly seniors, it's hard to believe we're now those seniors.

Despite senioritis, our senior year is one to remember forever. We've had some fun times, did some dumb things, made a lot of good friends and encountered many interesting experiences during our years here at Kimball and all I can say is, WE FINALLY MADE IT! By Mary Jones

Yes, Virginia, there is a Santa Claus. And yes, Seniors, there is life after Kimball. In fact, some say life starts after high school. For some, Kimball has been a stepping stone to bigger and better things like college, career and even a family.

For others, these last four years have been life in jail. Despite what role Kimball has played for you, take the knowledge you have gained and make your way in the world as best as you can.

# MOCK ELECTIONS

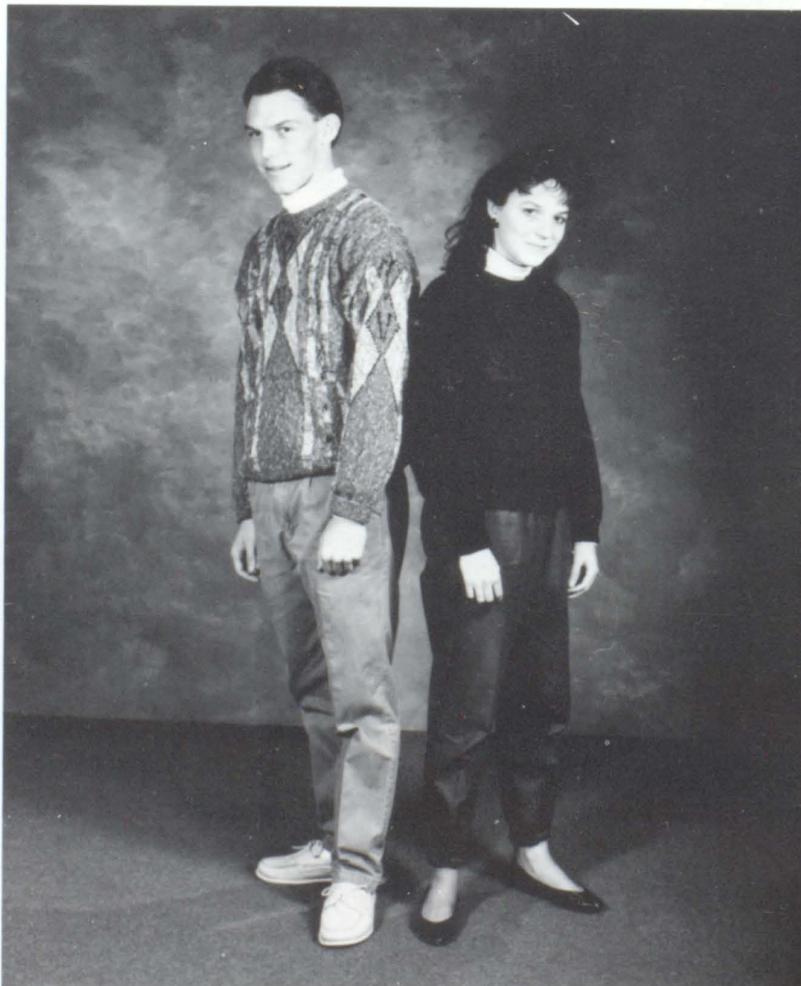

Dressed for success are JOHN YOUNG and JENNY MILLER, who have been voted by this year's senior class as the MOST LIKELY TO SUCCEED and from the looks of it they are off to a great start.

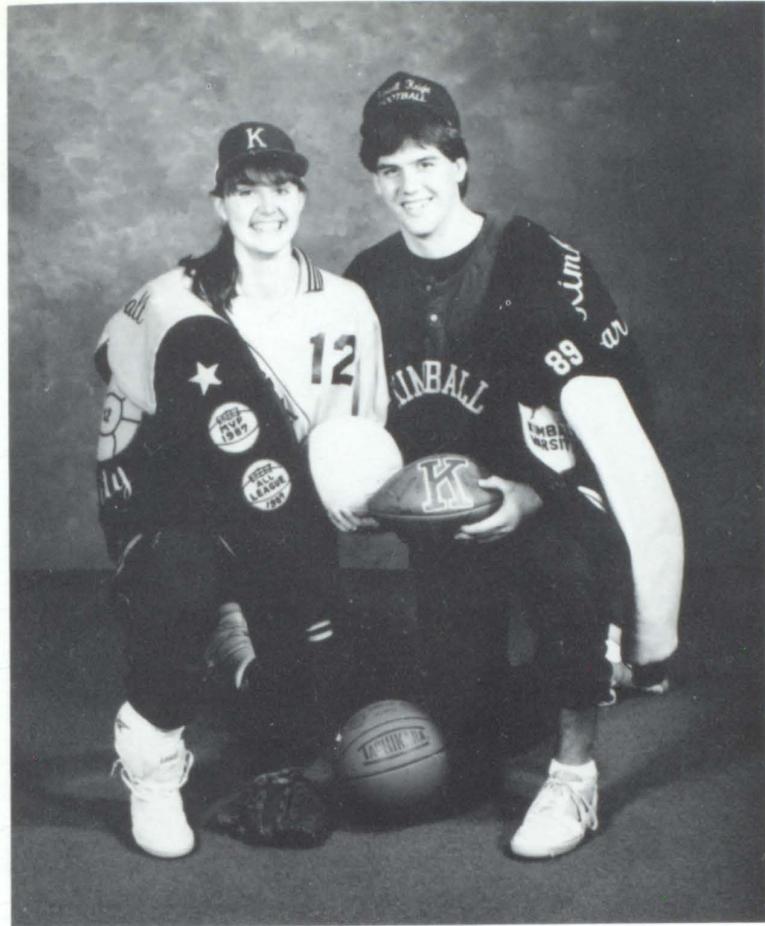

You won't see these two seniors frowning. You can always count on a smile from our MOST CHEERFUL TONY NIMMOOR and DINA LOVE.

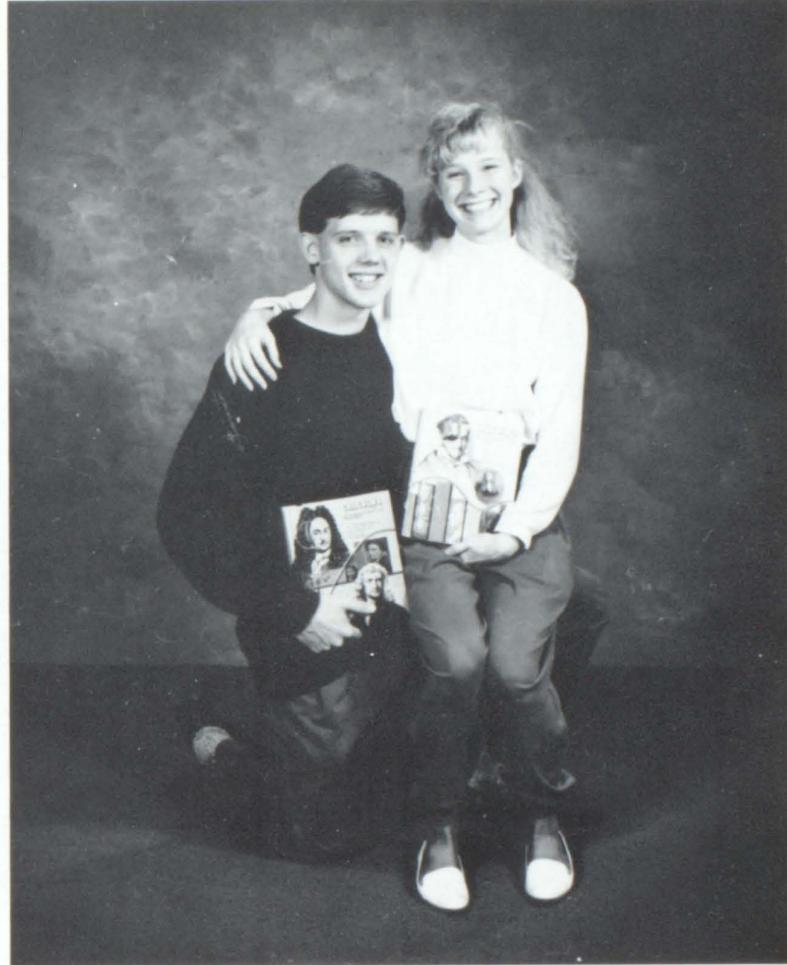

Your eyes say a lot, some claim, and if you take a look at the eyes on JASON HILL and VICKI FRITZLAN you'll totally agree. These two each have a pair of the PRETTIEST EYES.

Bashful?! Well maybe to those who don't know them that well, but their quiet front is what gave JIM HARRISON and LAURA ZIMMERMAN the vote for MOST SHY.

If you are looking for JIM SONNENBERG or TINA RONAN, you may want to try the track, football field, basketball court, vollyball court or the softball field, for these two were voted MOST ATHLETIC.

KIM SAWICKI and JOEL SMITH have it all. They are a fun loving free spirited pair, whose personality is adding up to give them PERSONALITY PLUS!!!!

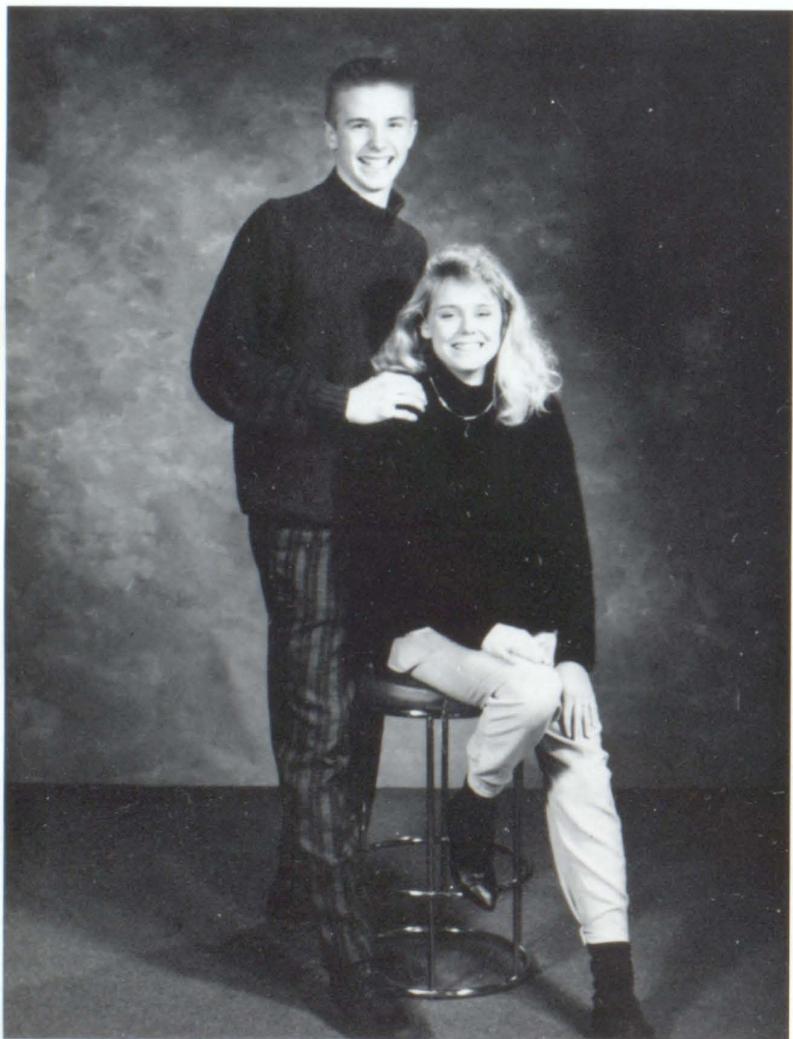

Need a laugh? Well then look no further! ERIC STIEF and MICHELLE WOODY are sure to bring a smile to your face. That's why they were voted CLASS CLOWNS.

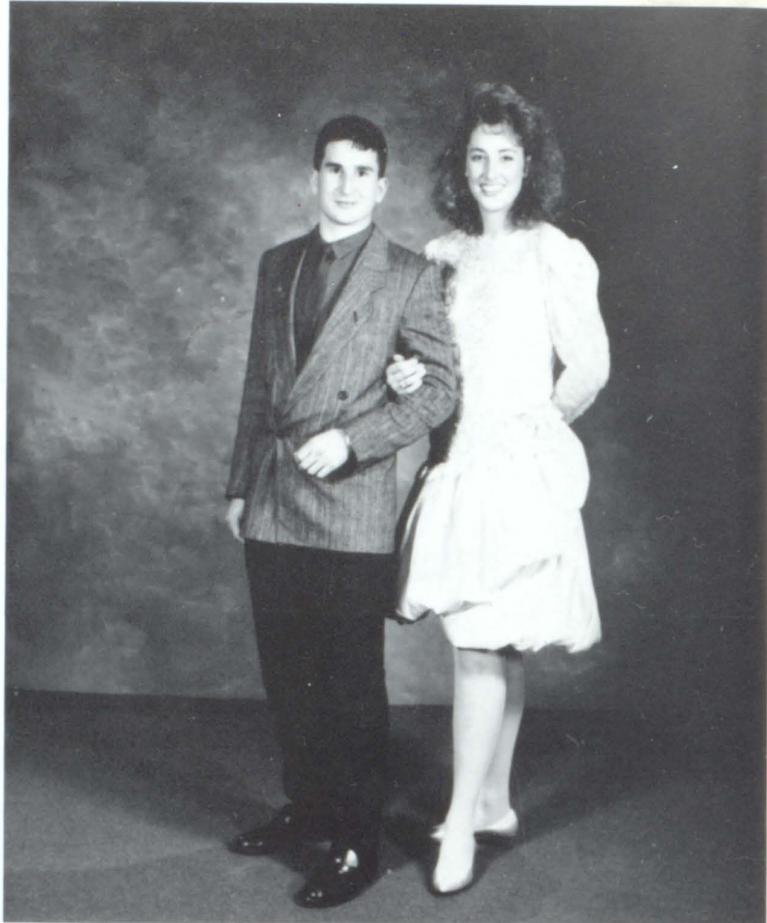

BEST BODS? Well you might not believe it from the looks of this picture, but under all that clothing BECKY AMELL and MIKE MOSSOIAN have Kimball's BEST BODS!!!!

No matter what it is, a soccer game, swim meet, pep assembly, powder puff game, or anything else, KATY GENTILE and BRIAN MIKELS will be there dressed in Blue and Gold, giving it their all. No wonder they have the MOST SCHOOL SPIRIT.

Need a little sunshine in your day? Well, when you see MATT GLAZA or JACKY HERRON you may just get that. For they have the SUNNIEST SMILES around.

This dapper couple will surely impress you with their great taste in clothing. That's why REX BOYCE and JEANETTE KEMBLE were voted BEST DRESSED.

Creativity is AMY DODD's and JASON FONG's middle name. They are very talented and show it in everything they do. That's why they were voted MOST CREATIVE.

# KNOTABLE KNIGHTS

A Knotable Knight is an outstanding athlete or member of a sport or organization. They are chosen because of their achievements as leaders, as academic performers, as dedicated participants, and as people who are willing to try hard and make every opportunity work to their advantage. These students are deserving of the Knotable Knight honor in one way or another. Congratulations to this year's Knights: Lissa Chisholm, Amy Barnhart, Joel Smith, James Harrison, Scott Brinkman, Kristy Bera, Tammy Martin, Jim Sonnenberg, Jacky Herron, Jim Roberts, Jenny Gellasch, Jennifer Hartman, Amy Dodd, Tina Ronan, Jason Gessert, Steve Kinkade, Lisa Seymour, John Young, Dina Love, Kim Sawicki, Dave Pollack, Vicki Fritzlan, Dawn Strumbel, Walter Schmidt, Melanie Vandertuin, Mike Arnold, Darren King, Jenny Miller, Sarah Grant and Rob Wicklund. #### WHAT IS THE BEST THING ABOUT BEING A JUNIOR?

Katy Dolan: "You're in your prime"

Jenny Straith: "Being on tennis with Kristen Peterson"

Keith Roskelly: "You're considered a stud"

Amy Bicknell: "The thought that we're all around awesome"

Rob Mawhinney: "Getting the Freshman girls to drool all over you!"

#### WHAT IS THE WORST THING ABOUT BEING A JUNIOR?

Carol Cordone: "I only see Paul on the weekends"

Koren Davenport: "No one to hold my hand in school"

Abby Henry: "Having a Senior boyfriend that won't be here next year!"

Dean Pioch: "That we are not Seniors"

#### WHAT ADVICE WOULD YOU GIVE A NEW JUNIOR STUDENT?

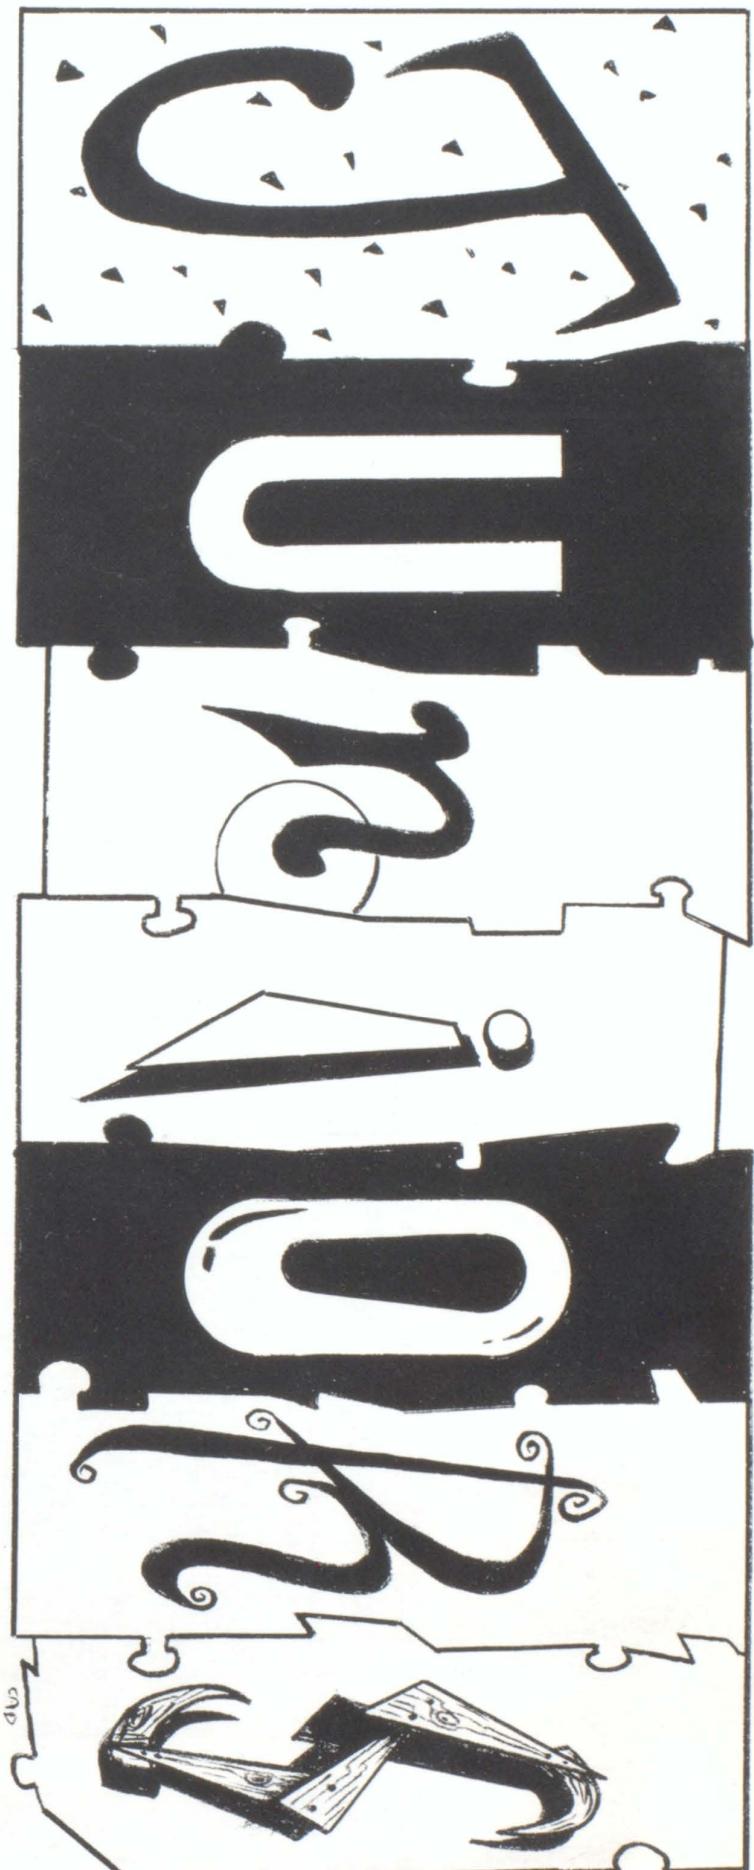

Kevin Tiffany: "GO BACK!!!"

Kristi Mackenzie: "If you have to borrow a car, ask Rob Mawhinney. License or not!"

Linda Day: "Welcome to the jungle, it gets worse here every day!"

Mike Shook: "Live it up the best you can, cause you aren't gonna want to come back again!"

## ONE YEAR CLOSER TO BEING A SENIOR

Junior year, the year students are gaining some status but don't quite have the prestige of the Seniors. At last, Juniors are entitled to a seat in the upper glass hall. With two years of high school experience behind them, Juniors are looking forward to the rest of their high school careers.

This is the year when teenagers start looking into colleges and taking those "wonderful" SAT tests. Plans are starting to be made about the future.

Junior year is also a time for fun. It's the first year they can play Powderpuff. By the third year in high school, most Juniors have turned 16 and have gotten their licenses.

When the Juniors look back on this year they will probably remember a year of growing and learning, consisting of good times and maybe a few bad times, as well. And who can forget the anticipation of waiting for the last year of high school to come? More freedom, more fun and more responsibilities mark the Junior year.

#### THE LONG AWAITED LICENSE

By the time most students are juniors, they have reached "sweet sixteen" and broken the barrier between adolescence and young adulthood. And, as everyone knows, when a person reaches age 16, he or she is legally able to drive and, if (and only if) his or her parents sign on the dotted line, they can receive a license.

With the license, comes a car of one sort (a mother's old station wagon) or another (a brand new candy-apple red Ferrari).

Also with a car comes the cost of maintenance. Everyday costs including gas and oil are no major hardship to most kids. However, it seems that when students ask for free rides, (continued on next page)

teenagers with cars seem to get selfish. Suppose your parents gave you a new little Yugo for your 16th birthday. You'd think it was great and you'd show it off with all sorts of pride, driving your friends here and there for about a week. Then you'd notice the little arrow pointed to the "E" of the gas gauge. So you take your auto down to Speedway and fill the tank up with gas and you discover that the cute, shiny, little Yugo costs twelve bucks a shot to fill it up! (That's close to \$50 a month for you freshman.) And wow! You could buy that new U2 tape or three pairs of socks or a pair of silver earrings or two movie tickets. The list goes on and on, and you finally see why your parents called this a "responsibility".

So, the moral of the story can be two fold. Number one, a license is a privilege not a right, or number two, if you beg for rides, offer a bit of cash incentive for the driver, and you'll stay friends for life.

## GETTING A JOB

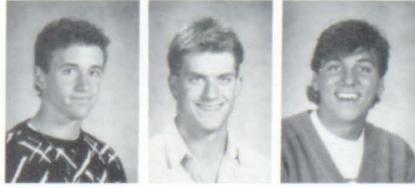

Junior year is the year when kids start getting serious about getting a job. They start to realize that they need money for a lot of things. Whether it is for a car, college tuition, or just being able to afford to take a girl or boy out on a date. The financial problem sets in and there's only one way to fix it. Get a job.

Most kids don't care where they work just as long as they get paid well. Jobs for students range anywhere from flipping whoppers at Burger King to being an assistant nurse at Beaumont Hospital.

Jobs can be time consuming and a lot of work but just the thought of money will motivate a teenager enough to go out and apply for one.

The Junior Year: A Year of Responsibility

Craig Cabble  
 Michael Cantrall  
 John Carson

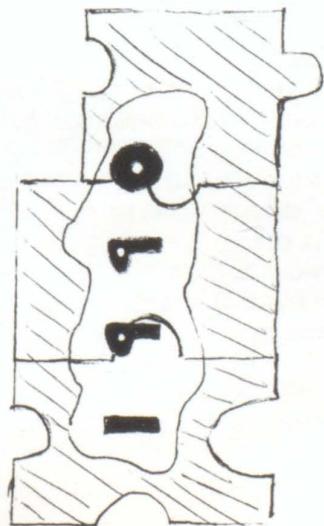

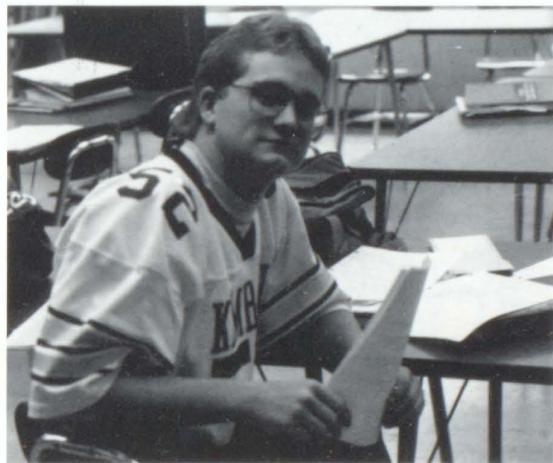

Michele Ruehs  
 Kevin Tiffany

The Junior Year is a big transition year for teenagers, because, now that their freedom has been gained, they must also face the responsibilities of the different aspects of life. Cars, dating, socializing and especially college, all cost money. What better way to make money than to get a job? And that's just what most Juniors do. Whether it's at McDonalds or Franks, a steady paycheck helps meet the costs of living.

## WHAT IS THE WORST THING ABOUT BEING A SOPHOMORE?

Tiffany Newton: "Not being able to drive yet"

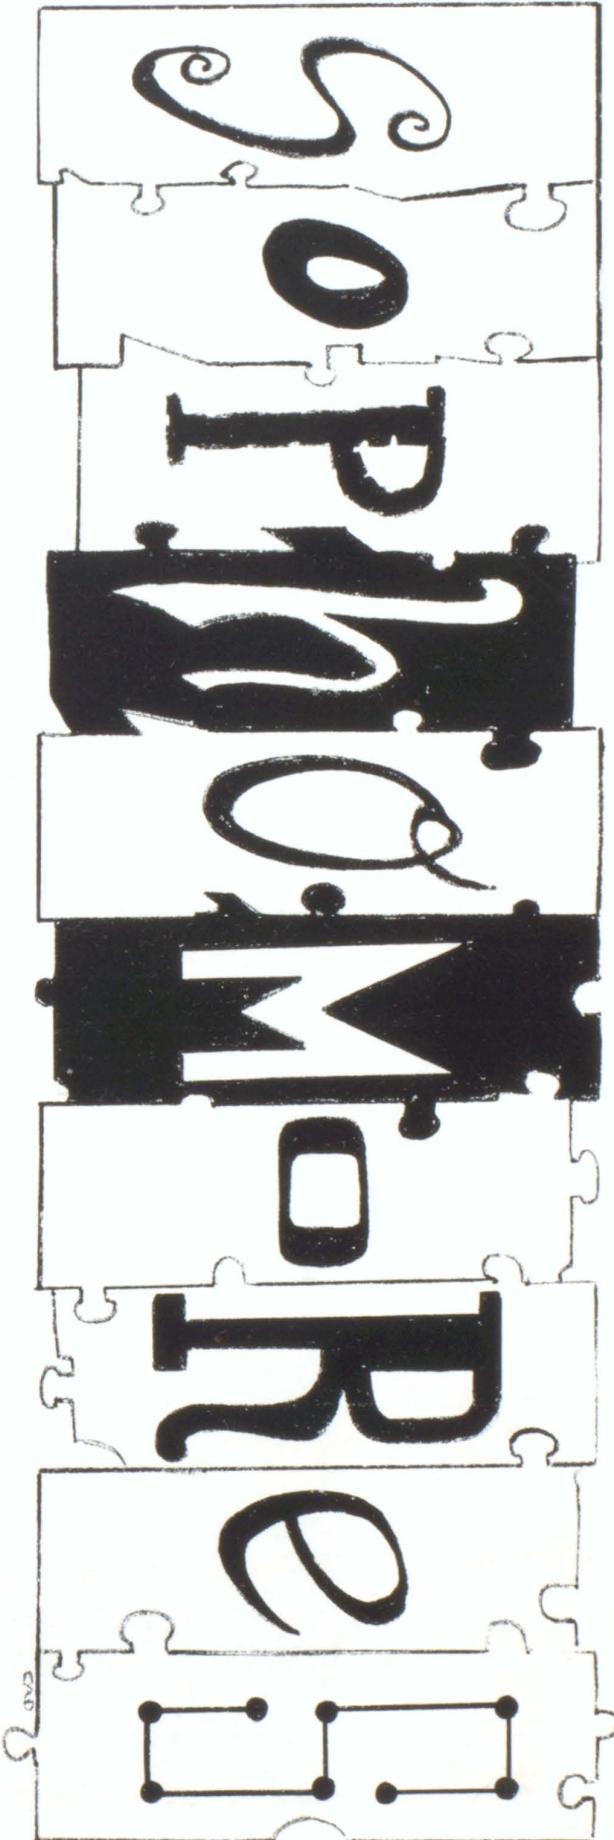

D'Anne Darland: "We are still underclassmen"

Kirsten Stoehr: "This year seems the same as last year"

Dana Grant: "You can't use the excuse you're a freshman anymore, but I'll always be a freshman ask Kelley

Arnold."

Mark Mason: "Kelley Young — Just Kidding."

So, how does it feel to be a sophomore? No more trying to figure out where your classes are, asking directions, or feeling "dumb". No more walking in the wrong classes and being laughed at. Well for some of us that was an impression of the first year of high school.

Even though we are still underclassmen, now we are the ones laughing at the embarrassing and weird things that freshman do. Some of us still act pretty immature at times and some of us probably always will.

But no matter how embarrassing or how strange we felt at first, there were always the good times. The friends that always made us feel better, made us laugh, or made us smile. That's another thing that most of us won't forget.

High school is probably the best place for fun and memories. These first two years sure flew by fast and we only have two more years left until 1991. OH YEA

## SOPHOMORE LEISURE

Sophomores enjoy their leisure time when they are not studying. Their favorite place for this is the upper glass hall at Kimball, at least after school and during open hours, that is! Before school the class of '91 tends to hang out in front of the stairway by the middle doors.

Hopefully out of school these people have a lot more exciting free time.

Some people choose to spend their time at the mall, checking out the guys (or girls as the case may be), going to parties, the movies, or just hanging around with a bunch of friends. If you are fortunate enough to be one of the few of the Sophomores with a license, then you can cruise around and pick up a few of your friends.

Sometimes some of the guys may get a football or basketball game going on a fall weekend.

So, no matter how you spend your free time Sophomore year, enjoy it to the hilt!

In this article which I am writing, I feel that we should explore the concept of the word "Freshman," and try to get to the root of the word, a deeper meaning of the word and of ourselves. First of all we'll have to break down the word. Let us begin with "Fresh". This obviously once defined the fact that 9th graders were new or "fresh" to the school. However, in certain circles this word has come to mean "The Best" or "The Most Respected". Although in the high school social setting it is traditionally the Seniors who command this respect. So in these modern times the term "Fresh" should not be used in describing 9th graders. The "man" portion is also inappropriate and sexist. A generic term meaning "Students" should replace this term. Obviously most 14 - 15 year olds cannot be considered "men"; and, of course, this term in no way applies to the female half of the 9th grade class. Then, if you will, it would serve poetic justice to cease referring to the 9th grade class with this misnomer. A new more appropriate term must be found. "Un estudiante del primer año", a Spanish quote meaning "first year student" is much more encompassing than "Freshman". I thank you for your time and consideration in reading this. I ask one thing of you, that you find a more appropriate term for the 9th graders, because I have concluded that "Freshman" is not at all in any way the correct thing to call our first year students at K.H.S.

Remember your first year of high school? The nerves, the frustration, the torment from upper classmen, elevator passes, walking down the glass hall . . . ALONE!

Well, after the first week (maybe two if you were small) you made it. So just to see how everyone was doing, I took it upon myself to talk to them.

I spoke to Mr. Erick Fair. "Erick", I asked, "What's the best thing about being a freshman?"

Erick: " I don't like being a freshman."

Anyway, what else better to ask afterward but "What's the worst thing?" "Well ..... the upper classmen picking on you probably." Sorry Erick. It happens to the best of us.

Well now Erick, "What advice would you give to incoming freshmen?" (The faithful Lancer staff and their ever creative questions).

This one seemed simple for our dear friend Erick, "Don't act stupid!" (Did we ever?)

Last and final question, Erick was gettin fidgety, "How are you adjusting to K.H.S.?"

Erick: "Fine". In fact most Freshmen I questioned responded almost in the exact same way. This means one of two things: one, Freshmen are intimidated by members of the Lancer staff or Freshmen don't feel confident enough this early in their career to speak what they truly think.

That's been a trend for many years; it'll never be changed. Even though the upperclass pick on Freshmen, they don't mean any harm. Just think that, in the future, Freshmen get to pick up where other upperclassmen left off. Instead of sitting in the lower glass hall, Freshmen finally get to have the great feeling of being Kings and Queens by sitting in the upper glass hall. From then on Freshmen can walk down the halls having the feeling of knowing where they're going and that they know almost

Here you are at the end of your first year in high school. How was it? Fun, exciting, snazzy, boring? No matter what, I'm sure you can't wait to be a Sophomore. You may have asked at this point or earlier in the year, "Was I the classic dweeby Freshmen or the step up to a respectable ninth grader?" Well in my opinion, chances are that unless you tripped and fell in the glass hall or dropped all your books down the stairs, (classic Freshmen nightmares) you should have the satisfaction of calling yourself a ninth grader. When we asked Malinda Grisdale what advice she would give to an incoming Freshmen she said, "Don't be

nervous on your first day." Good advice! The first day wasn't that bad, was it?? Well on that note Cliff wanted to tell incoming freshmen to "Stay away from the garbage cans."

Sorry Cliff! But soon you'll be "Sophomores!" Hope it was worth it and next year there will be Freshmen for Cliff to put in garbage cans. It should be easier to find your classes, your locker, and the parking lot. So Hey! Have a great summer! Take a trip, bug your parents, find yourself, and be glad that next year you'll be that much closer to graduation. Make it worth it, it won't last forever.

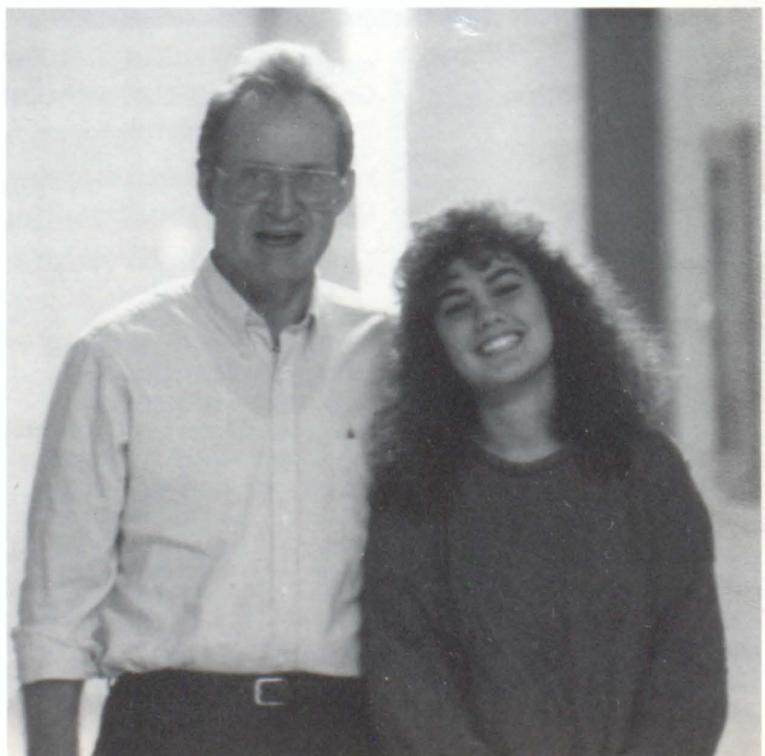

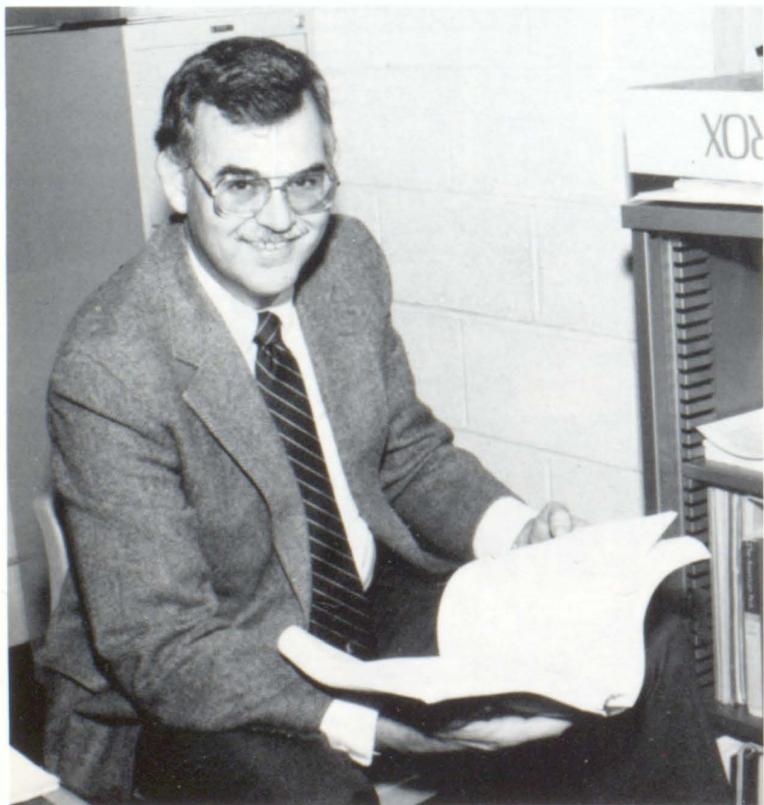

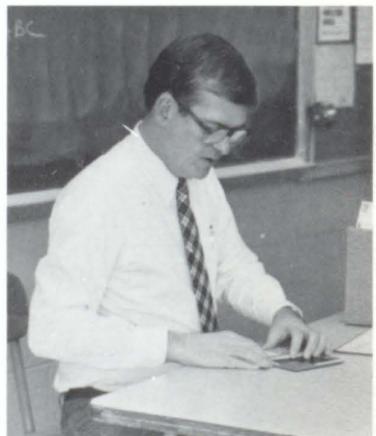

There is no teaching until the pupil is brought into the same state or principle in which you are; a transfusion takes place; he is you and you are he; then is a teaching, and by no unfriendly chance or bad company can he ever quite lose the benefit.

# DEDICATION

*This year's Lancer is dedicated to our long-serving and well-loved Assistant Principal, Mr. Malcolm Armstrong. Mr. Armstrong has been here at Kimball since 1961, when he taught Civics and Government and was also the advisor to Roundtable. In 1964, he was promoted to Assistant to the Principal. In 1980, he changed titles one last time and officially became our beloved Assistant Principal.*

*Over the years, Mr. Armstrong has taken on two tremendous projects: the reconstruction of the architecture of the building and the co-ordination of each student's schedule every single year. Mr. Armstrong has seen the halls change from locker lounges to the blue and gold dandy lockers we have today. He's also seen the pile of schedules grow from about 1,200 to a whopping 3,500!! Haven't things changed?*

*Mr. Armstrong had a few positive statements he wanted to make for this article. About the new surge of school spirit, he responded, "Very encouraging. More students are becoming involved in everything. That's what counts."*

*With this last statement, the Lancer Staff of 1989 lovingly dedicates this yearbook.*

Of course we've all suffered through, Math, Science, and English, to get those credits we'll all need to graduate. But once you get through those, there is a brighter side to the academic courses such as classes like, Art, Auto Mechanics, Herald, Xenolith, and last but surely not least Lancer.

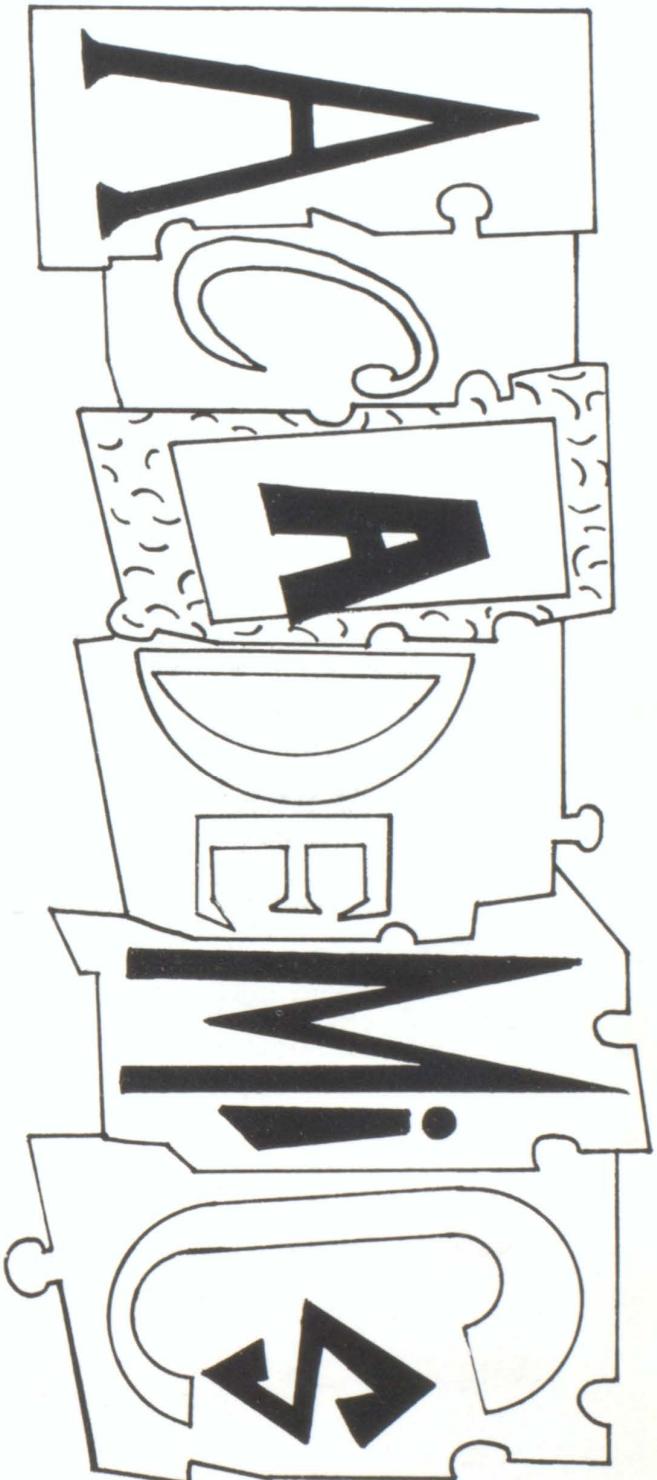

These courses give the student a feeling of accomplishment. The academics offered here at Kimball are not only fun but are also a great challenge.

English at its very best: can you handle it

What's so funny about a camera girls?

Paul Grimmett tries to get the answer.

English is a class that most students can find very easy to relate to. The English Department has a wide range of classes. Since everyone either prefers reading or writing, Kimball offers a variety of both types.

Writing courses range from the beginning level, Basic Composition, to the more advanced Imaginative Writing. Reading classes offer basics with Current Readings to the more complex World, American, and English Literatures. The ultimate to be taken as a senior is AP English, which basically combines all sections of English into one challenging course.

English is the essence of our lives. Thus, English courses are of the utmost importance to Americans.

FOREIGN LANGUAGE  
BON JOUR! ?Que tal? Sprechen sie deutsch? If you understand any of these phrases you've probably been taking a foreign language. Three four-year languages are offered (Spanish, French, German) along with a one year course in Latin.

What's the good of a foreign language? It's not just learning to speak, write and read the language, it's learning about the culture. It's finding out what values those people have. It's becoming aware of that nation's history and heritage. It's almost like becoming a person from that country for an hour a day.

But none of that says that there isn't work involved. It takes time and dedication to finish up your high school career with four consecutive years of a language. However, if you do choose that long, four-year road, you will have a valuable skill that will stay with you for the rest of your life.

Linda Day does her experiment.

Just the right calculations.

Mr. Myers helps out some students.

Keep up the good work.

Happiness is reading science.

Wayne Chow watches and learns.

Jim Sonnenberg and Sean Ross make a perfect team when it comes to doing their experiment.

Todd Braund reads the outcome of his experiment.

Traci Sergeant weighs her beaker carefully.

Another successful experiment.

Sara Hodgin and Jenny Straith work together during science.

Mr. Schultheiss gets involved.

## SCIENCE

Kimball's Science Department is very extraordinary. The classes offered are not only interesting, but also fun. Incoming freshmen usually take Life Science, Environmental Science or Physical Science. These classes offer the basic skills to introduce students to the world of science. Sophomores usually take Biology, which directs its attentions toward living organisms. Physics and Chemistry, which can be taken in either the junior or senior year, deal with the study of the manner in which things react with one another.

Unfortunately, high school students cannot learn all these tantalizing facts by osmosis. They need the assistance of the highly trained members of the Science Department. Thanks to the help of all these instructors, students leaving Kimball will have a solid science background.

# SOCIAL STUDIES

Mr. Borowski helps Todd Gessert.

*A severe case of brain strain?*

Glad you could join us!

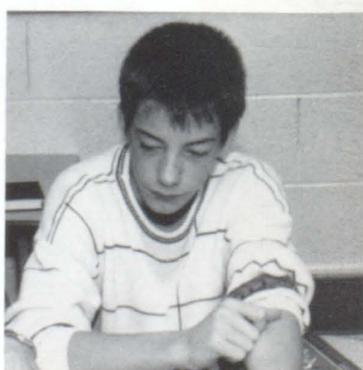

*This class isn't camera shy!*

Gary Homberger wakes up just in time to hear the bell.

*What's the joke? OOH! Social Studies, of course!*

*Study hard, Brian!!*

*Mrs. Estep lectures while her class listens and learns.*

*Here we have Eric Hansen playing shy, but he isn't.*

*Terra Strohm and Terry Strong are good buddies in Social Studies.*

*Scott Nedry works for an A.*

*Sitting proud is Nuno Garcia.*

*Otilia Balint and friend think Social Studies is fun.*

*Another smart answer!*

**S.S. '88-89'**  
The Social Studies department in Kimball is outstanding. History is very interesting and many students have found it fun to learn about what went on years before they were even born. (And we all know that life begins in high school.)

For all of you who aren't sure what classes you should take, here are a few things you should know.

1. Most incoming freshmen take Survey of the Social World. This basic class introduces you to the social studies area.

2. Sophomores generally take World History, which discusses cultures ranging from the Greek Civilization to recent history.

3. Juniors take U.S. History, which shows students the path the United States followed as it grew to become the world power it is today.

4. Seniors take American Government, which is undoubtedly the highlight of the social studies field.

All in all, social studies at Kimball gives everyone a solid background and a positive outlook on the world today.

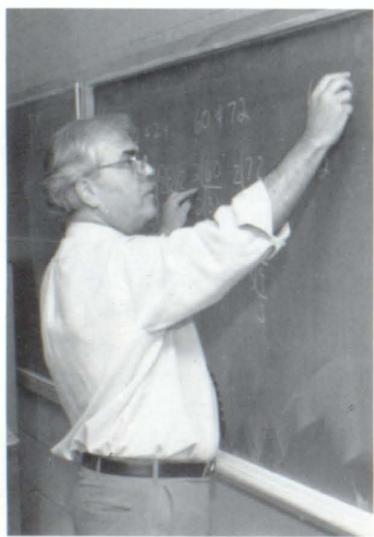

# MATH

Mr. Briercheck explains the complexities of math to Deanna Maynard.

Dawn Starks listens closely to the teacher's lecture.

Mr. Richards shows how it's done.

Michelle Clark questions the answer.

Bev Wheeler takes a break from her math assignment.

Carrie Valko listens closely.

Dave Higgins stops and thinks twice.

Jill Holly is puzzled by math.

Jenny Ritz, Yvonne Floyd, and Jason Field dream of a better place.

Jeremy Streeter works diligently on his math assignment.

Mr. Creech points out some facts.

Mr. Ewell smiles.

Open your Book!

The Kimball Math Department is getting better by the minute. There is a type of math for every kind of student, based on his or her abilities. The classes range from the extended courses, which give those of us who are not mathematically inclined that extra help, all the way to the honors courses, which end in the most challenging math course, calculus. The teachers in the Kimball Math Department are: Ms. Barth, Mr. Briercheck, Mr. Castle, Mr. Clark, Mr. Creech, Mr. Dalley, Mr. Ewell, Mr. Jacobson, Mr. Pedrick, Mr. Richards, and Mr. Schultheiss. The head of the department is Mr. Pedrick. All these teachers are very helpful to all students.

Students are encouraged to take four years of math, although only two years is required for graduation. Math is an extraordinary experience and thus should be experienced by all.

# COMPUTERS AND BUSINESS

Shelly Myers knows her type of business

Amy Patenaude works hard on her computer assignment.

Paxton Hunt looks ahead for the answer.

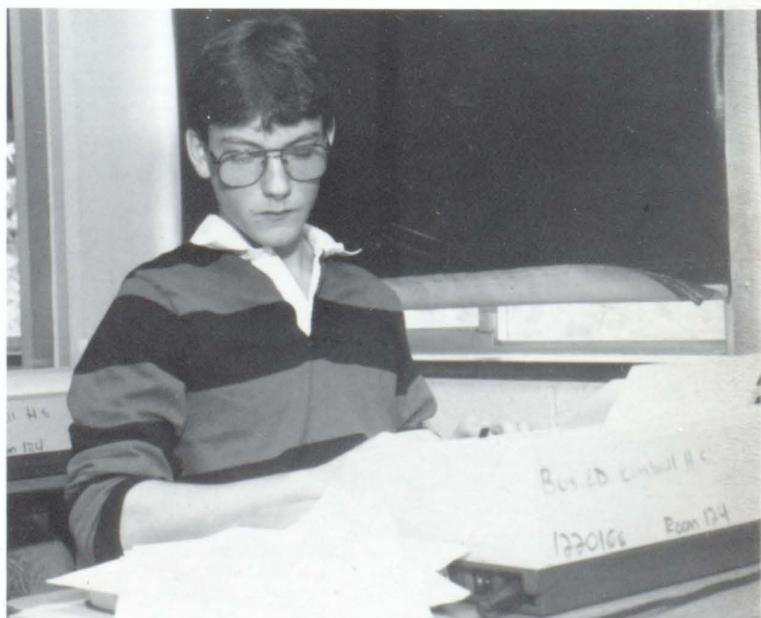

Sean Leske ponders a thought.

Randy Boyd loves his work.

Paul Carey checks his work for mistakes.

Laura Wojcik inserts her data.

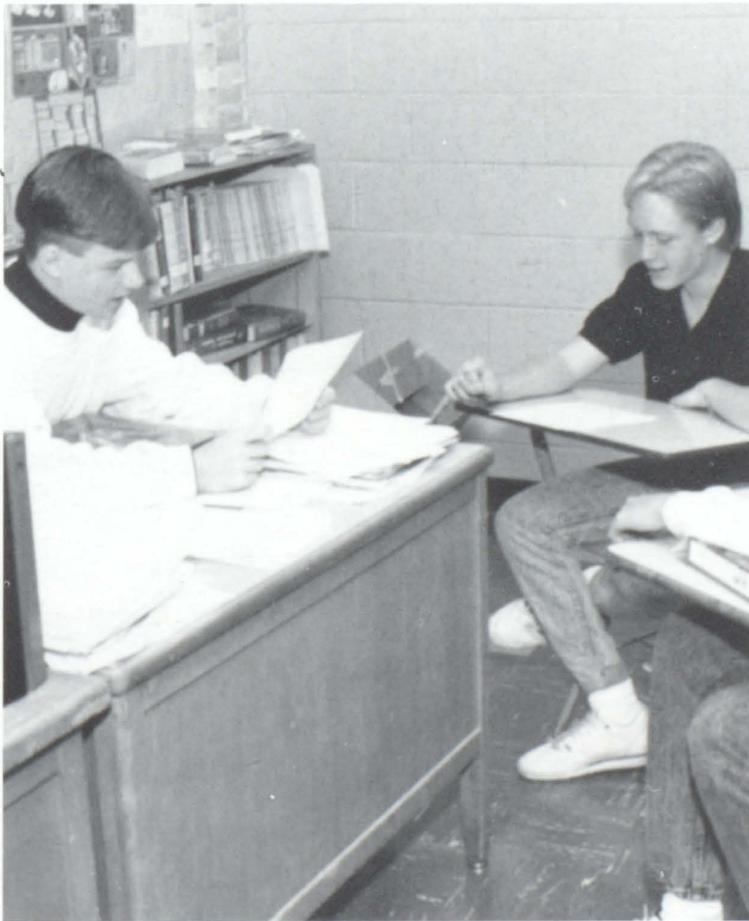

Kathy Horner finds that chips are not just for eating.

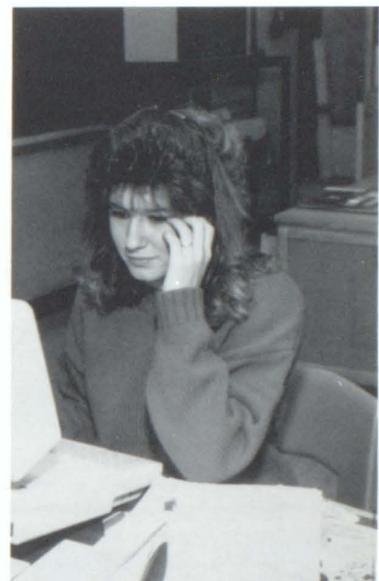

Don't fall asleep at the keys.

Keep up the good work.

Jeff Murphy and Jason Flowers study hard.

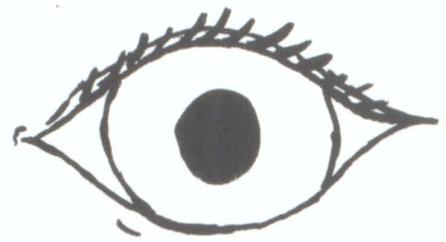

Monica Stonepainter is hard at work.

## Computer Business

You'd be a fool if you didn't think you needed these classes. Business classes are the most important academic classes offered at Kimball. Out in the world today, it's hard to find a job where you don't have to type or use a computer, even if you have a secretary. If you are one of the few who never has to type after you get in the work force, you can almost promise yourself that you will need to type in college. Besides, you're going to need to know how to balance that money sent by your mom. Without the experience you'd be at a major loss. That's why Kimball offers so many classes such as: Shorthand, Accounting, Typing, Writing With a Word Processor and much, much more. So sign up now and begin your future one step ahead.

### ECLIPTICAL ART!!!

The art department at Kimball is run by Mr. Landry and Mr. Powers. Mr. Landry teaches Art 1&2, Commercial Art, and Honors Art. Mr. Powers teaches Arts and Crafts, Art 1&2, and Advanced Art. Both teachers are fairly new, and Mr. Powers just began last year.

Classes deal with clay, oil paints, tempera paints, pastels and other mediums. And now for BIZARRE ART QUOTES!

"'76 - The art of nerf fencing." Courtney Bradshaw  
"Close but no Candice!"  
Craig Drake

"Without art, there would be no world." The deepest of all art quotes from Jeff Taylor  
"Black Velvet." John Kownacki

"Fresh for brains." Erin Cavanaugh

"Art is the best trip on paper." Jay Bondy  
"Art is not art, unless it's on Black Velvet." Robert L. Landry.

"Ditto." Mr. Powers

In conclusion, this class of art enthusiasts create, under the guidance of Mr. Landry, masterpieces even beyond their own expectations.

# INDUSTRIAL ARTS

Industrial Arts involve a wide variety of subjects that many students enjoy. Classes such as Graphic Arts, Technical Machine and Architectural Drafting teach skills for computer-aided design and construction methods.

Kimball has impressive woodworking and electrical machinery, useful in teaching such courses as Electronics and Advanced Woods. Students who take Woodshop have the opportunity to design projects of their own. Students in Electronics construct simple circuits and electronical devices.

Auto Maintenance provides the fundamentals of the operation and maintenance of cars. This course is a prerequisite for Auto Mechanics.

The teachers are Mr. Zientek, Mr. Albright, Mr. Barth, Mr. Palmaeteer, and Mr. Schlottman.

Pictured to the right: Mike Watson, Frank Welsh, and Dave White prepare the wood for a project with a planing machine. Industrial art classes are a good experience and a lot of fun for everyone.

# AUTO MECHANICS

Sophomore Allan Kroenke and Craig Cabbie are carefully replacing the carburetor in the engine.

Are you interested in cars? If your answer is yes to this question then Auto Mechanics is definitely the place for you! Just look at how much fun these guys are having working on the engine. Everyone needs to know how to fix the car. No one knows when he or she will be in a situation that requires this knowledge. Girls, this is referring to you as well, because even if you do not understand cars, you need to learn how they work! In this class students don't work on models. Instead they get to work on real cars. It is more effective this way. Auto Mechanics is not only an interesting way to earn credit toward graduation, but it is also an educational experience that will be useful for the entire rest of a student's life. There are many quizzes and tests to see how much information has been learned and memorized. Believe it or not there is a lot! Students who like to work hard and gain useful knowledge will enjoy this class.

Mr. Palmateer is hard at work in the auto mechanics room. This man is by far one of the best auto mechanic teachers around.

Ellis Boyce, Chad Strehike and John Novak look at what the finished product looks like. Finally they're ready to roll!

# XENOLITH

(row 4) Beth MacKenzie, Monica Dodd, Nissa Hoermann, Michelle Ruehs, Don Downie, Margaret Skwira.

Mrs. McClanaghan celebrates with her staff.

## WRITING WORKS!

For those who enjoy writing poetry, drawing pictures or reading creative stories, then the *Xenolith* is the magazine for you. The staff collects photographs, poems, and art pieces from students, and combines them all into an art magazine that can be purchased at the end of the year.

*Xenolith* had a booth at the All School Picnic, which took place right before school started last fall. The creative arts magazine editors, Jason Fong, Amy Dodd, Todd Bossenberger, and Chrystine Mueller, were there to represent the staff. Their advisor, Mrs. Barbara McClanaghan, was also there representing the yearly magazine.

Those who purchased last year's edition, were attracted to the drawing talent of Jason Fong. Several of his cartoon drawings appeared in that edition, and many more are predicted for this year's version.

Under Mrs. McClanaghan's guidance, the *Xenolith* has won national acclaim in past years and the editor's this year, plan to keep the rankings high.

The *Xenolith* really is a great magazine, full of feeling and expression. It can be read over and over, and something new will always catch your eye.

# HAPPENIN' HERALD

Shown on the next page, Jenny Miller, one of the editors of the **Herald** prepares her picture to fit the article on the latest victory for a Kimball team. The **Herald** is Kimball's own newspaper and is put together by students for students. The **Herald** staff is made up of twenty-four students and with help from their advisor, Mrs. Bennett, they assemble a new and exciting issue every month. The **Herald** contains stories, movie and concert reviews, and articles about events in and around Kimball. In addition there are special features. For example, students can write for advice from the **Herald** Advisor and the questions and answers are printed in the paper. There is a section in each paper for sports. Photo fun is a part of the **Herald** everyone looks forward to seeing. The photographers Becky Amell, Lissa Chisholm, and Richard Inocencio always seem to be at the right place at the right time to catch hilarious candid. Occasionally, the **Herald** features horoscopes. Students at Kimball really enjoy this section of entertaining predictions of future events! This year's editors are Vicki Fritzlan, Sarah Grant, and Jenny Miller. Thanks to them and the other staff members, the **Herald** is enjoyed by all.

# LANCER LIFE

A school yearbook is more than just pictures and names. It is a book of memories; a book to look back on after twenty years and recall the time Kimball won the Homecoming game in '88, or the time Vice President Bush made a speech in the gym. This year's yearbook, as always, took a lot of time, patience, and cooperation to put together. Pictures had to be taken, captions had to be designed, but thanks to the whole **Lancer** staff, another edition was successful.

The **Lancer** staff is a group of students who work together with their advisor to produce a new yearbook each year. Every day is a busy one in the **Lancer** room. Each person is assigned a different section. The sections might be sports, academics, activities, class pictures or (of course) candid. This year, the **Lancer** is pleased to have a new advisor, Mrs. Wine. She, along with Senior Editor, Jennifer Hartman, keep the other members of the **Lancer** staff on their toes so they can meet deadlines and have the photographers at the right place at the right time to catch the perfect snapshots. **Lancer** life is just like the pictures here; sophomore Jenny Behenna consults Mrs. Wine on page numbers. Although it is a lot of hard work and dedication, the **Lancer** staff always pulls through.

Mary Ruth Jones, Jenny Hartman, Adam Bostic, and Jenny Gellasch, this year's editors, are friends in and out of the **Lancer** room.

Linda Day stops for a smile.

## ROUNDTABLE RULES!

The student government at our school is called Roundtable. It's made up of five or six students from each class and four Senior officers who act as secretary, treasurer, vice-president, and president. These Roundtable representatives work to fill our school with enjoyable activities.

Two Juniors that help out in accomplishing this are Tom Fuhrman and Dean Pioch. Tom, a two year representative, and Dean, a first year representative, work hard to do their share of the planning.

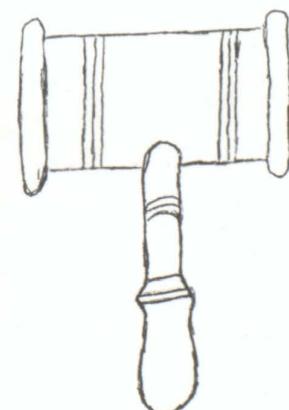

"I like it a lot," said Dean. "You do a lot of extra activities and planning outside of school. Being on Roundtable has taught me a lot about leadership."

Some of the things Roundtable organize are: the dances; the canned-food drive at Christmas; and the school auction. Year after year Roundtable keeps up school spirit by sponsoring pep rallies and field day.

One activity that was planned by Roundtable for the first time last year and was a huge success was the Summer Kick-Off Party that was held in the spring outside in the courtyard. Since it was one of the best attended dances last year it will probably become a Kimball tradition.

One of the biggest events Roundtable plans is Homecoming. They not only have to run it that night but they also organize and decorate everything.

As you can tell, a lot of leadership takes place in Roundtable. Members have to be responsible and ready to work. We have Roundtable to thank for all the fun filled activities that the student body here at Kimball can attend.

# CO-OP

CO-OP

The ultimate experience here at Kimball is CO-OP. CO-OP gives a select number of seniors the opportunity to make money while getting class and credit. These special students gain valuable work experience working on campus (Student Service Center, Main Office, Athletic Office library) or off campus (Board of Education, or any business in the area.) The lucky people in CO-OP take a mere four classes if they work full time. Seniors can work either morning or afternoon.

The wonderful ladies in the Student Service Center hold a special place in all our hearts as they answer the phones, excuse our absences and allow us to see the Counselors.

"I like CO-OP because I can work more hours to make more money and it is a GREAT work experience!"

— Dawn Jabara, Co-op student

# OAKLAND TECHNICAL CENTER

Bethany Ball picks out cattails she will work with.

Terra Strohm gives a manicure to the class skeleton.

Lesley Edwards does her work.

Sandra Jurewich works on making her garden look beautiful.

Kate Stewart is no dummy when it comes to dental work.

## O.T.C

"What does it mean?" you ask. For some O.T.C. (Oakland Technical Center) stands for an opportunity to get ahead in a chosen business trade, while also earning credits to graduate. For others, it may just mean a bus ride and a half day of school. Those that are serious use it to their advantage to get ahead.

For example, these are the classes available at the center: Floral Design and Sales, Building Trades, Auto Shop, Cosmetology, Robotics, Automation, Auto Body, Appliance Service Technology, Building Maintenance and Management, Data Processing, Dental Office Assistant, Drafting/C.A.D., Electronics Technology, Fashion Design, Tailoring, Food Service, Green House Management-Landscaping, Machine Trades, Medical Office Assistant, Optical Mechanics, Printing, Telecommunications, and Welding. Of course, there's always the small print overlooked that says you have to be a junior or senior, so it's too late seniors, a little too early freshmen, but sophomores think about it for next year and juniors sign up now!

Dave Silvers plays around with wires to get his project to work.

# THE ALL ENCOMPASSING LIBRARY

Right: Ms. Magid and Debbie Pennell discuss the interesting facts found in our library books.

Students using their time wisely.

Lower left: Bonnie and Mary are ready to assist you. Below: John, try not to be so enthusiastic about another day of stimulating education.

Let us please discuss, the library. It is a place to learn and grow; a place to socialize and have fun, while teachers think we work. All in all, the library is a sanctuary for books.

The women who run the library (Kimball's Liberators of the Dewey Decimal System) are Ms. Scarifino, Ms. Magid, and Ms. Peterson. I'm sure you've seen them taking care of books or just trying to keep the place quiet.

Many students take time out from their busy schedules to use the library. There are often mysterious pranksters who put the "evil electrons" in the books. This causes unsuspecting victims to become embarrassed when the alarm goes off and the L.P.A. (Literature Protection Agency) comes to cart them away.

All this pain and aggravation can be avoided!!!  
DON'T STEAL LIBRARY BOOKS!!

# A.V. ACTION

What kind of action is there in A.V.? Well, to begin, there's lots of wheeling VCRs to various rooms, up and down the ramp. Tons of cassettes, filmstrips, records, and people go in and out of the Audio-Visual room. In fact, there is more action in A.V. than in all the other classes combined.

Who do you think allows you to sleep during government as a boring movie drones on in the background? The A.V. Staff! Who provides Mrs. Klein with the tape recorder to play "Escucha Las Senales"? The A.V. Staff! As you can obviously see, the A.V. Staff improves our environment here at Kimball. For this, we all owe the A.V. Staff our deepest, thankful sentiments.

THANK YOU!!!

The Special Ed Department at Kimball is run by Mrs. Bananasch. The Teacher and therapists involved are as follows: Karen Festa (physically impaired); Jill Palmer (adaptive P.E impaired); Mike Tomlinson (Sturnum for those who know him well) a consultant; Miss Cindy Cook (Mobility); Kay Stedmann; (Visually Impaired); Judy Samuel; Trudy Connor; Sue Jones; Linda Catalina; (Secondary POHI program) and Doug Hartle. Teacher aides are: Jim Herrera; John Wilson; Gina Thompson; Nancy Lowry; Barb Cramer and Helen Lung.

There are approximately 150 students involved in the Special Ed Program. These students are from the entire Oakland County area. It's open to the physically impaired, and to the hearing, visually, emotionally and learning disabled.

All students are given the option of following a regular schedule like all other students who plan to graduate and go on to college. If that is not possible for the student then other programs to help them graduate with the same high school diploma are made available. Joyce Nelson is the work-study coordinator and arranges for a job placement.

# The T.V. Scene

Sex, Drugs, Violence. Now that I have your attention, I'd like to tell you about television in the 1980's.

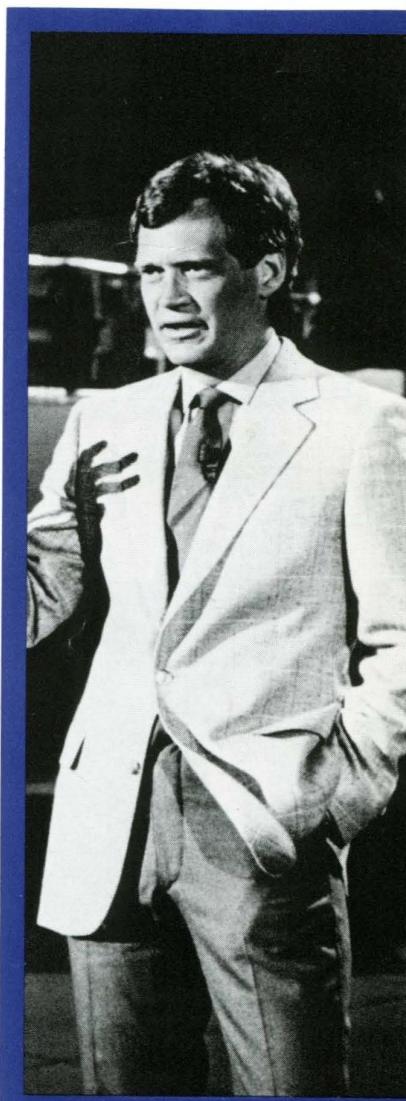

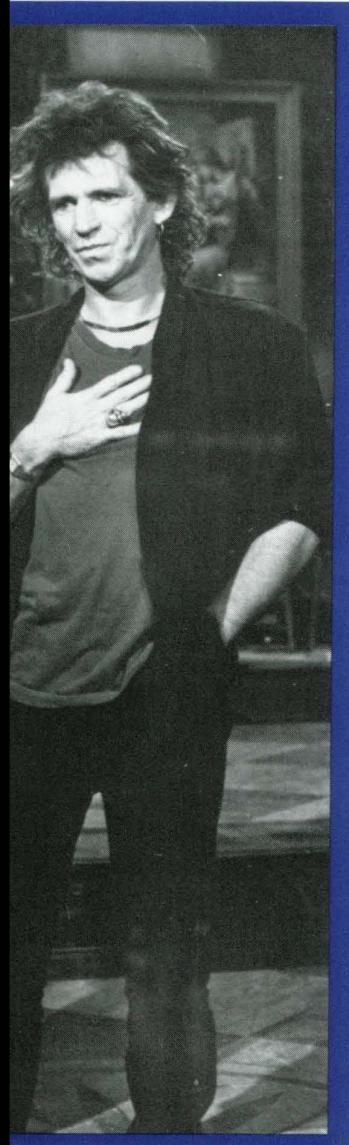

Early in the 60's the word pregnant was never said on T.V. and even Ricky and Lucy slept in separate beds. Now every Wednesday night you can turn on **Dynasty** and see Joan Collins in a plunging neckline.

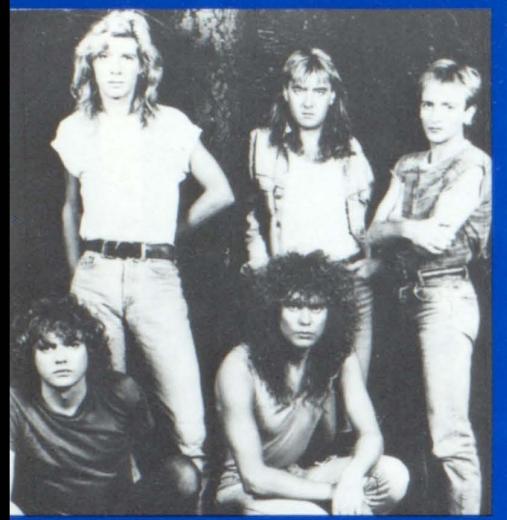

Each hour viewers witness an average of seven kisses on T.V. Even more during the prime time hours of 8-11 p.m. There are also many sexual innuendos. Especially on situation comedies, for example, the **Three's Company** episode when Jack was giving cooking lessons to his boss's wife but Terry thought she was paying him for something else! And during the **Return of the Brady Bunch**, Carol gave Jan permission to "be a little late to breakfast" with her husband Phillip. Many of the top rated shows have a high sexual content.

Then there are the Saturday morning cartoons. Take shows like **G.I. Joe**, **Teenage Mutant Ninja Turtles**, **Transformers**, and **Tom and Jerry** which display a great amount of violence. When I spoke with some youngsters they informed me that these were some of their favorites. Look in a television programming guide, you will notice the high number of police shows. When a person (in real life) gets killed it is a very sad, and sometimes scary, event, and yet the public, including small children, see people shot, beat up, and in violent accidents every night on T.V. It doesn't make sense.

The 80's brought a lot of new and interesting (not to mention funny) situation comedies. Otherwise known as sitcoms, they have brought us a lot of our favorite actors. Mark Linn-Baker and Bronson Pinchot are a hilarious pair in **Perfect Strangers**. Bea Arthur, Betty White, Rue McClanahan, and Estelle Getty are real swingin' singles on **The Golden Girls**. But what has to be the most successful half hour on television is . . . Yep, you guessed it the **Cosby Show**. The whole cast of characters work wonderfully together to bring a new and exciting episode every Thursday night. "The Cos" took a brief turn for the worse during the depressing writer's strike, but it quickly regained its popularity with the births of Nelson and Winney, the first two great grandchildren in the Huxtable family. Way to go Bill!!

Who knows what the future of television programming is? A cartoon David Letterman, perhaps? A Family Ties mini-series when Alex becomes President? Maybe **Saturday Night Live** will once again get hosts like Tom Hanks with musical guest Keith Richards (left) or even game show king Alex Trebek. We'll just have to keep watching to see what the boob-tube has in store for us!

1988 brought many changes. From the poll we conducted with the student body, one of the most surprising was the shift in musical taste in Royal Oak. Last year we saw **U2** voted **Best Artist** and the focus was mainly on the Top Forty. Even though **U2** pulled through and remained at the top, it was closely pursued by the heavy metal bands, **Metallica**, **Guns -n- Roses**, and **Def Leppard**, who secured second, third and fourth places respectively. But **U2** was not entirely alone in the running for Top 40's/ Rock music. Fifth and sixth was captured entirely and unequivocally by **INXS** and **R.E.M.**. Other winners were **Bon Jovi**, **The Cure**, **Depeche Mode** and **Poison**.

The choice for **Best Band** was clear cut compared to the **Best Song**. In fact, there was a four-way tie for first place. **"One"** by Metallica, **"New Year's Day"** by U2, **"Born To Be My Baby"** by Bon Jovi, and **"Never Tear Us Apart"** by INXS were the lucky quartet to win your votes. Even stranger still was the fact that five songs tied for second. Obviously, there are too many good songs to pick one favorite.

Choosing a song may have been tough, but there was no contest when it came down to video. **"Need You Tonight/Mediate"** by INXS won everybody's heart because over 60% of the 202 people polled voted for this **bomb** video. The close runner-ups were **"One"**, **"Pour Some Sugar On Me"** by Def Leppard and **"Paradise City"** by **Guns -n- Roses**.

Kimball students compared very well with the **Rolling Stone Magazine** poll, as nearly all our favorites were also listed as national favorites.

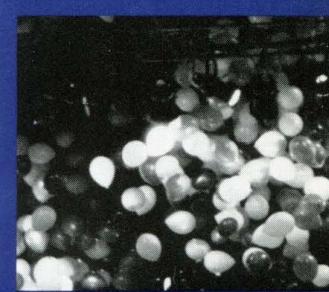

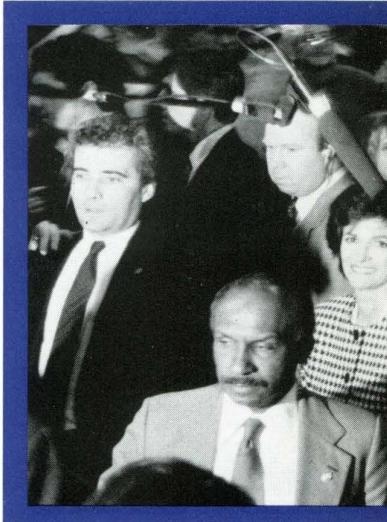

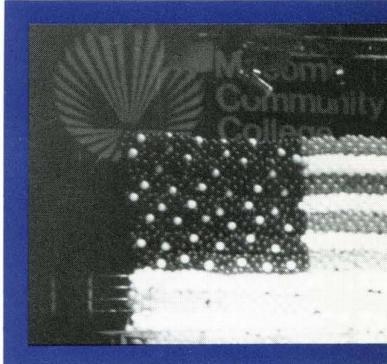

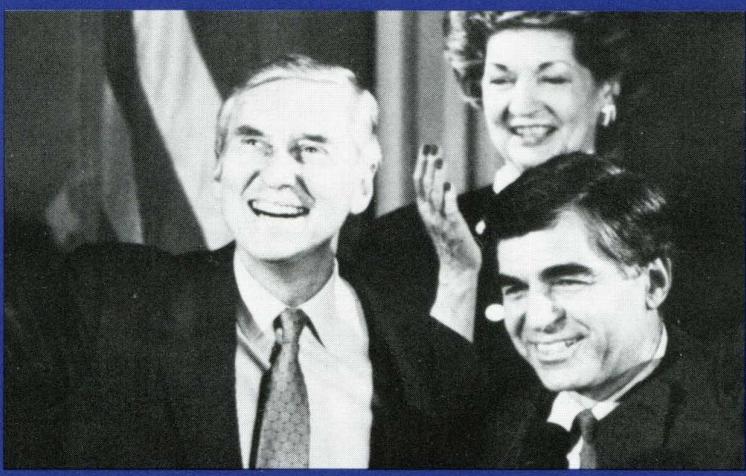

# ELECTION COMES TO *Democrats*

Not only is it a rare opportunity to see the Vice-President in person, but to also see his opponent within a month is almost unheard of. Well, a lucky 30 Kimball students had the chance to travel to **Macomb Community College** and see **Mr. Michael Dukakis** give his enthralling rally speech.

Before we actually heard from the Governor of Massachusetts, we heard from Michigan's two senators, and the one and only **Bob Dylan**. What an exciting group of guest speakers. Amid all the hustle and bustle, we also heard M.C.C.'s Marching band go at the instrumental versions of modern songs. (Obviously popular with both parties.)

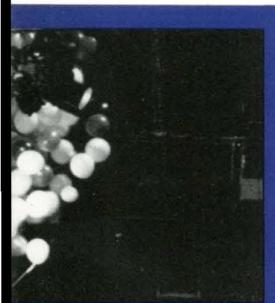

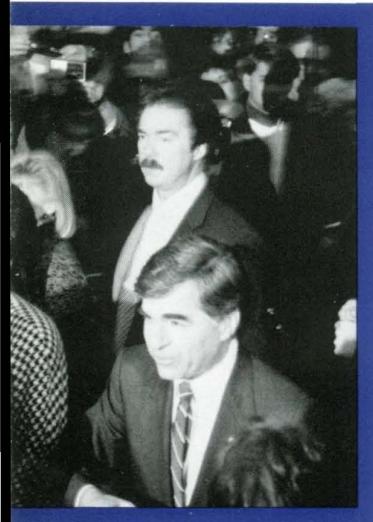

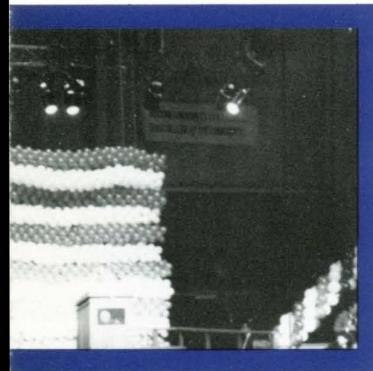

And then, after the hour delay caused by the late plane of the International Press, the opening notes of U2's famous "**Where the Streets Have No Name**" coming from speakers everywhere. Just like a music video, the double doors burst open at the most captivating part of the song and sure enough, Mike strolled through with a ready wave and a flashy smile.

And, that was the **Democratic** appearance in our area.

# '88 ROYAL OAK

## *Republicans*

Very few people have the opportunity to see the President of the United States in person. Even fewer have the chance to say they also saw a former President in the same day. Well, nearly five-thousand people in the Royal Oak area had the chance to do just that. On October 19, 1988 at 11:00 am, Kimball was graced with the visit of now President (then Vice-President) **George Bush** and former President **Gerald Ford**. What an exciting day.

The audience was entertained by the combined choirs of **Kimball** and **Dondero** as well as the combined Marching Bands of both schools. We also had the rare opportunity to hear popular songs changed to be campaign slogans. The **Varsity Cheerleaders** were, perhaps the most lucky of all, for they had the chance to actually be on the stage with the President during his twenty-eight minute speech.

And that was the **Republican** appearance in Royal Oak. Of course, there was more to it, being as it was so close to home. Rumors of a tower being built on top of the little house in the student parking lot entrance filtered around while the all-too-visible Secret Service went around sniffing for bombs. Overall, nothing more exciting has happened at Kimball in the last four years, or maybe even in its entire history.

Suiting up for Vic-tory?

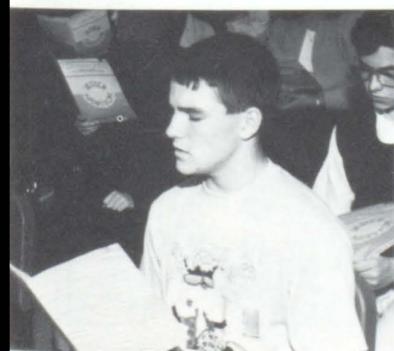

Let the music play!

We come to school for one important reason, and that is to receive an education. But can you imagine what it would be like if that was the only thing we had to look forward to? Learning is a great experience, but let's face it; school would be a boring place if we didn't have activities.

Here at Kimball, we have a variety of activities. We have football games, dances, plays, musicals, Homecoming, Spirit Week, Senior Dress Up Day, Field Day, Choir, Band, Orchestra, Powder Puff, Dance Club, and many more. Each one of these activities plays an important part in the school year, whether we realize or not. They act as a social outlet for us, the students, and promote unity and school spirit.

Next time you participate or do not want to participate in an activity, stop and think of its purpose and all that it stands for. Then go out, get to know new people, and have a good time.

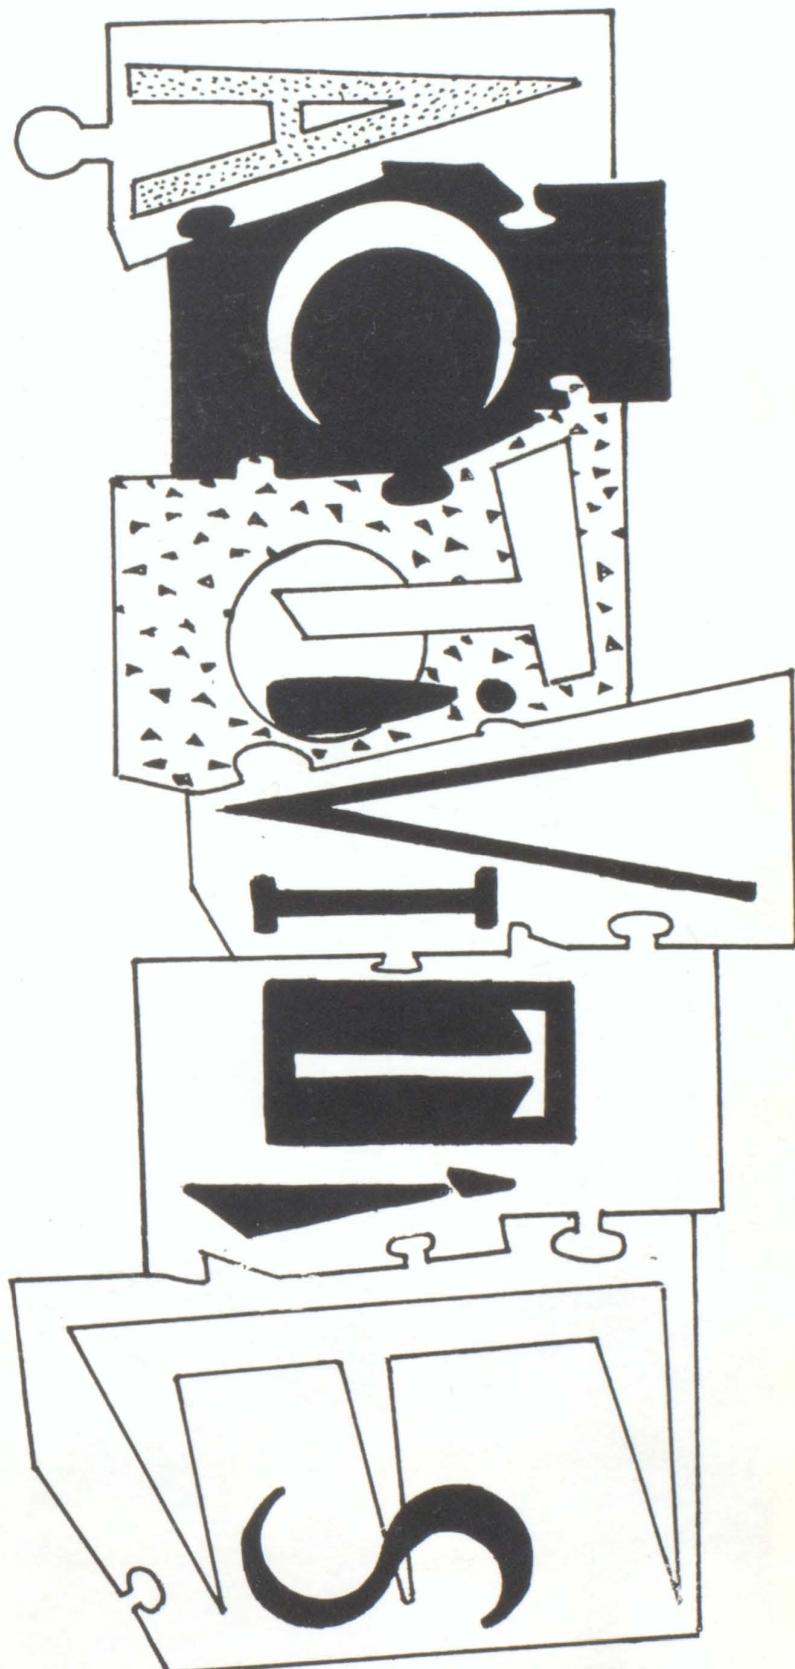

Sing it Tom!

Rich Wunderlich and Lissa Chisholm are a picture perfect couple.

#### A NEW LEADER, A NEW IDEA

For Mr. Neville this is a new school. For us, the students, Mr. Neville means a new beginning, and what better way to begin a new school year than with an all school picnic? This was just one of Mr. Neville's ideas for reviving school spirit here at Kimball.

Over the summer Mr. Neville attended a picnic at Lamphere High School and observed the activities that went on. He thought it was a great idea and brought it to Kimball. It was a nice way to greet the incoming freshmen and to highlight the seniors, not to mention the way it brought us all together.

The picnic set the scene for a spirited school year. Mr. Neville feels this is a very important factor for having a school that is united and this feeling should be sustained throughout the whole school year and in years to come. Let's remember the great time we had at the picnic and keep the spirit flowing for what is yet to come!

*Happy girls ready for action.*

## HOT-TO-GO!!!

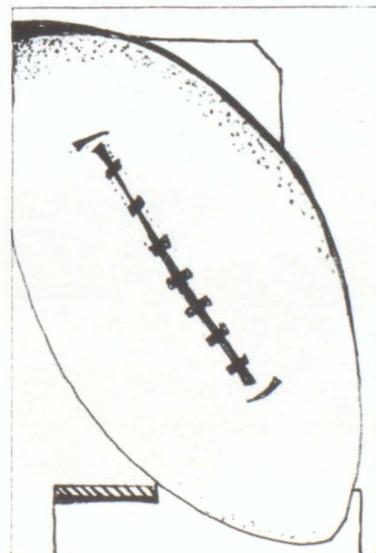

WE WILL, WE WILL ROCK YOU!! That's exactly what happened.

Seniors rocked the Juniors 21-17. It wasn't an easy battle. The Juniors were pretty strong, so the Seniors were sweating it out when the Juniors made the first two touchdowns. BUT, in the end, SENIORS were stronger. It was raining and the ground was wet, making every play a dangerous one. Things seemed to be going great for the Slam, until the injuries began. Nearly half the Seniors and Juniors both, had players hurting all over the field. The injuries ranged from Dina Love's sprained thumb to Renee O'Branovic's re-pulled knee.

This year's victory made the second of two unforgettable wins for the Seniors. For the Juniors, the motivation is strong to do the best they can next year as Seniors. Good luck girls.

Powderpuff is a game of excitement and fun for both players and fans. It's something for underclassmen to look forward to.

**GREAT GAME GIRLS!** You're all truly HOT-TO-GO!!!

Homecoming King and Queen: Jim Sonnenberg and Becky Amell.

A Knight by the sea.

Homecoming is truly a time of remembrance. It seems to be a memory that is cherished for years and years. Homecoming means different things to different people. To freshmen, it could mean that first dance with that special somebody; to a football player, a win for their school; to a sophomore or a junior, a time of sharing with their friends; and to a senior guy or girl, the honor of accepting the reign of king or queen. Nobody can define the true meaning of Homecoming for anyone else.

This year, Homecoming was special. The theme was "A Knight By the Sea". Class floats were created, symbolizing the theme. And wouldn't you know it? The seniors won with their prize-winning lobster. Anyway, spirits were running high, due to the 14-6 victory against Andover. Then the dance came, where all the nominees were dressed elegantly, patiently awaiting the moment when the new Homecoming King and Queen would be announced. And the winners were . . . Jim Sonnenberg and Becky Amell!

Before we knew it, the night was gone, but that special memory remains in our hearts. (Forever.)

As usual, Todd is surrounded by his fans.

How's the sweet peas, Mrs. Waughop? (Jennifer Hartman)

Beautiful family portrait: Mother, daughter, and kitty.

Let's see a smile, Allison.

Agnes dreams of the fair.

The 1988 fun-filled fall play was the comedy "Meet Me in St. Louis". In this three act play, the audience was delighted by fantastic performances by Todd Hittle, who played Mr. Smith, Emily Danielson, who played Mrs. Smith and the rest of the Smith family, which included Rose, their eldest daughter (Debbie Cramer), Esther (Karen Reggio), Agnes (Becky Belian), Tootie (Danielle Wiese), their son Lon (Chad Grunklemyer) and the whimsical Grandpa (Adam Giffin).

The Smith family loves living in St. Louis and who can blame them since the World's Fair of 1904 is just a week away? Unfortunately, Mr. Smith is offered a promotion from his very professional boss, Mr. Dodge (played by the always ready Adam Bostic) and has to move to New York. That's when all the trouble begins.

The family doesn't want to move, especially Rose since her love, John Shepard (Joe Cope), lives in St. Louis and so does Fred Gregory (John Haack), the boy Esther has her eyes (and hands) on. Lon won't be able to chase Ida Boothby (Michelle DeWitt) in New York, and while Esther and Rose are away, the worldly Lucille Pentard (Allison Reynolds) is at play and will dance the night away with both John and Fred.

Many people in St. Louis will miss the Smith's including their maid, Katie (Tracey Cook) but there are a few people who won't miss them. For instance, irate next-door neighbor, Mrs. Waughop (played by the very professional Jennifer Hartman) and the sneaky Mr. Duffy (Sam Chunn) who thinks he should have been sent to New York in place of Mr. Smith.

All in all, "Meet Me in St. Louis" was a mess of fun and frolic for the entire family, audience, cast and crew. (This means you, Catherine Johnston, student director extraordinaire.)

# 42nd Street

These sexy gals are singing "The Shadow Waltz."

Todd says, "Thank you for coming."

Charlene and chorus sing, "There's a Sunny Side to Every Situation."

Jeff Mar agrees that "There's a Sunny Side to Every Situation."

Jim Glasson and chorus girls sing, "I Know Now."

The soon-to-be chorus give it their all at auditions.

#### FORTY-SECOND STREET!

42nd Street was the Spring Musical of 1988, and what a great musical it was! It was very clear that a lot of time and preparation went into it, making it seem like a Broadway production.

For those of you who didn't see it, it was a musical inside a musical. It takes place on 42nd Street in New York City where auditions for *Pretty Lady* are being held. That is where Dorothy Brock (Andrea Still) the big time star comes in, but not for long. Misfortune falls upon her, leaving her with a sprained ankle. Who will take her place??? A small town girl named Peggy Sawyer (Tammy Martin), that's who! She can sing and dance like you've never seen! We all know "the show must go on" and it does, leaving many with a night to remember.

Other great performances were given by Jim Sonnenberg (Andy Lee), Todd Hittle (Bert Barry), Lynette Kerr (Phyllis), Jim Glasson (Billy Lawler), and all the other ladies and gents of the chorus! Great job guys!!

## GOOD STUFF

Do you know someone in choir? I'm sure you do, they're everywhere, and they just seem to stand out of the crowd. Choir members are an important part of Kimball's spirit, and they are not always recognized for their efforts.

Take the homecoming game, for instance. Half time entertainment just wouldn't have been the same. And how about all those seasonal concerts like in December, The Christmas Concert, in February, the Broadway Concert, in April, the Spring Concert and in June, the famous Kimball Pops Concert. Oh and don't forget the newest addition to the already more than full schedule of events — The All New 50's Concert.

Each choir has it's share in the responsibility. There are 5 actual choirs that perform. They are Freshmen Choir, Girls Choir, Concert Choir, Acapella, and Madrigals. The Madrigals are also members of the Acapella Choir. Each choir is lead by Mrs. Galli. She has done a great job this year in maintaining the choirs' reputation of excellence.

Little Drummer Boy of K.H.S.

These gals are crackin' out the tunes.

They played their drums for us.

The leader of our pep invoker.

Marching to the beat.

North America's most dangerous Marching Band is the Kimball Marching Band. This year the marching band has put on one of their best seasons ever! Not only was the band great but they had an outstanding leader, Todd Bossenberger and leading the Color Guard was Kathy Horner. In the past years the original producer of all these fine performances has been James Conaton. He also conducts both bands and organizes every trip that the band takes. This consists of going to the Detroit Autorama Show, marching in the Thanksgiving Day Parade, and competing in Toronto, (which is the most fun trip). They also march at Cedar Point. (The best part is getting on the rides free). The enthusiasm that the band has is consistent and catchy. CONGRATULATIONS to the Marching Band this year for having one of the best seasons ever!

Bravo-another great performance.

## Fine Young Performers

For many years now the Kimball Symphony Band goes to Festival and competes against other bands. This year when the band went they received straight ones. All three judges made great comments. I know that this year everyone tried their hardest to be the best they could and it definitely showed. Congratulations Band.

Concert Band is the second band at this school and throughout the year they improved steadily. Congratulations to them in their fabulous job at their Spring Concert. May they all continue playing to the best of their ability and good luck to their future years as musicians!

Picture perfect posture!

Brr-Brr-Brr it's imperial!

Alex Van Halen couldn't play it better.

Jazzy but classy.

I've never heard a more jazzier sound in my whole life than listening to Kimball's Jazz Band. Not only does it consist of the best players in the Symphony Band but it also consists of those willing to give up those Friday nights to go to the Basketball games and play their hearts out.

When ever you get in the mood and feel like changing the pace a little you should try going to one of the Kimball Orchestra's performances. They play every song with heart and soul.

## DANCE CLUB

Dance Club 1989. Another year, another wonderful show.

I'm sure you've seen the familiar sight of girls dancing to loud music in the glass hall after school from January to May. And if you are lucky you catch a glimpse of a father or a boy dancing along with them.

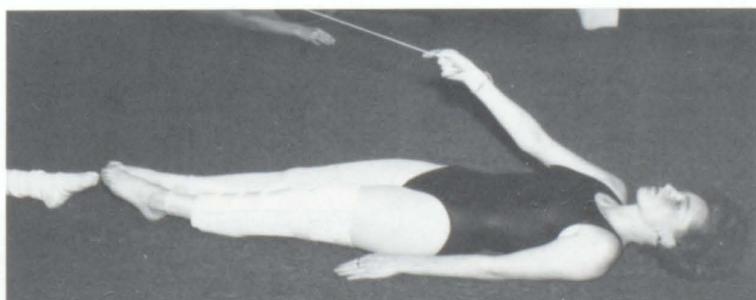

Much time and effort goes into the Dance Club show every year that they put on for 3 nights. This year there are 39 members and the sponsors are Gail Schlau and her assistant Mrs. Bera. This year's President is Kristy Bera, Vice President: Zoe Chatas Secretary: Katy Gentile and Treasurer Ann Madigan.

The Dance Club show displays a variety of dances. From rap to country and everything in between. The members make up the dances and try them out, then teach them to other members. 1 year members dance in 1 dance, 2 year dance in 2 dances, 3 in 3, and 4 in 4 (get it?)

It's never too late to become a Dance Club member, so if you've always wanted to but said, no, not me. Try Out! (But only if you are ready to put in lots of work and time!)

Lori Hazard once again, dancing on her merry way!

Cathy Coe doesn't let a sore leg get in the way of her dancing.

Julie Sipos and Lisa Nichols show off their very latest moves for us!

## Team Work!

Both Debate and Forensics are teams of, in a sense, fighters. Go for the gold (and blue), you might say. If you'd like to hear both sides, here's where to go. Although there aren't a large number of members, they really do their best and do very well for themselves, as well as for Kimball. Most members are pretty happy with debate and forensics, but there have been rumors of the opposing teams box of notes mysteriously disappearing into thin air, and other such horror stories. All in all, the Debate and Forensics teams have had a great year. Nice Job Teams!!!

# Voici Le Nouveau Club Francais.

French Club revived.

Our fourth year French student members say, "Salut!"

Kathy Koerner says, "Bon jour, mes amis!"

Once a long, long time ago, in a time era far away there was a French Club here at Kimball. For some unknown reason it was done away with. Well, guess what? It's been revived!

What does the French Club do, you ask? They do French things. Things like going to French restaurants and art exhibits. Its members consist of third and fourth year students. Its elected officers are: Amy Pugh, President; Irene Malinasky, Vice President; James Harrison, Treasurer; and Catherine Johnston, Secretary.

The French Club is a nice way to socialize outside of school. Maybe you should consider the French Club for the future.

*They don't look sad.*

Across the country everywhere, kids are getting involved with a well known organization called S.A.D.D.

S.A.D.D., which is short for Students Against Drunk Driving, is one of the biggest groups around. More and more students are committing themselves to this popular group.

This year, Kimball has started a S.A.D.D. chapter with the help of Mr. Hanoian, our sponsor. The officers, Katy Gentile and Amy Rickstad, have devoted a lot of time and energy into making this organization a success. With all their encouragement many students here have realized drunk driving among teenagers is a problem and they're getting involved to help.

Remember, drinking and driving is one of the leading killers among teenagers. So please get involved with S.A.D.D. and don't drive drunk!

B.P.O.A.

The 1988 Business Professionals of America were a great success. With the help of all their members, their candy sales were amazingly profitable. This was largely due to the input and time of a few special members.

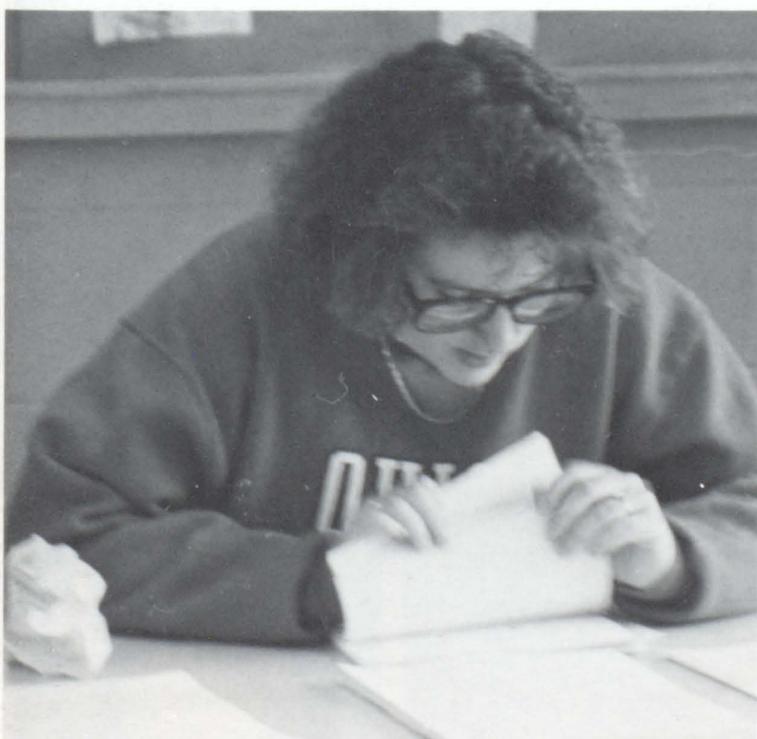

First, and hardly least important, was the time and effort put in by the advisor, Ms. Milich. She has been the advisor of this club for a few years, and we hope she'll stay that way.

Secondly, the combined efforts of the officers were nothing to scoff at. This year's officers were: Jennifer Lukovich - President, Jill Lukovich - Vice-President, Heston Stein - Treasurer, Dianne Hashim - Secretary, Shely Robbins - Parliamentarian.

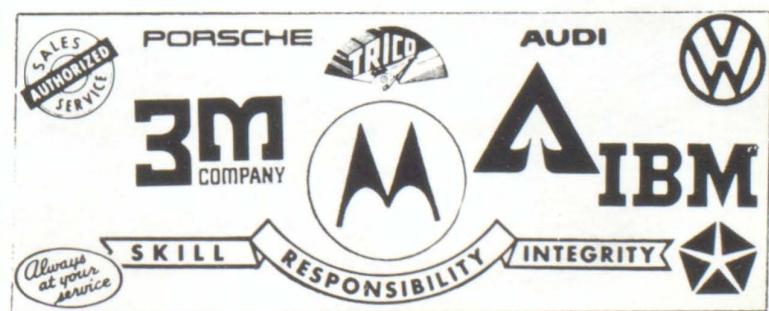

Last, but not least, were the general membership, giving their unwavering support throughout the year. Thanks for your efforts!

## What is N.H.S?

Here at Kimball, we have many clubs, sports, and organizations for students to participate in. These serve as social outlets and are a nice way to highlight students. One of our well known and highly respected organizations here is the National Honor Society.

The National Honor Society or N.H.S. consists of our most hard-working and intelligent people of the school. To be a member you must maintain, at least, a 3.2 grade point average and be actively involved in 2 other activities. Also you must have a good and positive attitude. Now I know that there are many of you who have kept a consistently high grade point but do you have a healthy attitude and are you well rounded in every area? If so, you qualify to be an N.H.S member. Ms. Benita Fell and Mr. Terry Powers are the sponsors of this fine group. They accept and review the data sheets of those juniors and seniors who wish to be a member. Now I know you're thinking, "Hmm, this would look good on my college application, I'm gonna join!" Well, I'm telling you this isn't just an organization that does nothing but has a name, it's much more! This year N.H.S has organized a book drive, and they have been tutoring those who need help with their school work.

If you are interested in being an N.H.S member, you have learned the acts, now go out and take part!

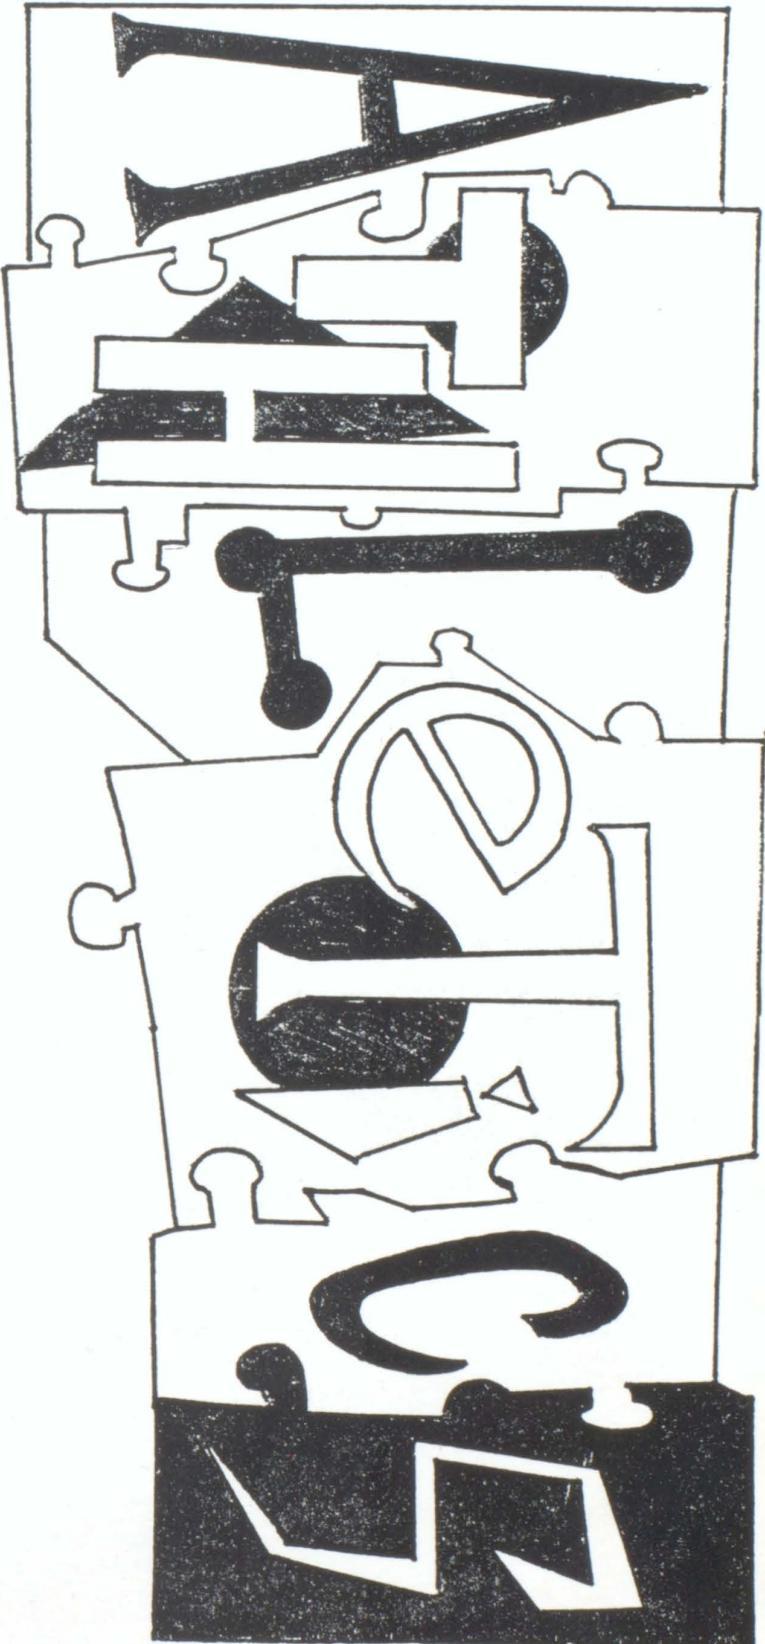

Kimball offers a variety of sports, from cheerleading to cross country. Each sport provides much needed pleasure and fun for the individual as well as the team.

Although not every team can boast the SMA title, everyone involved can say a lot of heart goes into their playing. Much can be learned from working together as a dedicated team. By combining the individual skills of each player into a successful unit, a team can improve as its season progresses. It is like putting the pieces of a puzzle together.

Kimball has many talented athletes who contribute to the athletic program. The lower glass hall is filled with pictures of the players who are particularly outstanding in their sport.

In addition to them, another major piece of the puzzle is the guidance of the teams' coach or coaches. These men and women contribute greatly to the athletes both on and off the field, court, track, in and out of the pool, on or off the parallel bars.

The coaches of the 1988-1989 school year are the pieces that make the Kimball athletes winners.

## Coach O'Branovic

Mr. Nick O'Branovic Jr. is the J.V. football coach here at Kimball. He's been coaching for three years. Coach O'Branovic is twenty-two years old and is not married. He attended Alma and played football there and also at Kimball High School.

"They all worked to their potential and gave one hundred percent," says Coach O'Branovic.

Coach O'Branovic also mentioned that he is really looking forward to the next season.

## Coach Hanoian

Mr. George Hanoian has been the varsity football coach for the twenty two years he has been working here. He is forty-six years old and is married. He also has three daughters. Coach Hanoian went to Eastern Michigan University and majored in biology. He played football in high school and in college.

"The team has improved a lot. They've played hard all season and have a lot of school spirit," says Coach Hanoian, "The attitudes were more positive and I like the enthusiasm about the student body. I'm looking forward to next year."

# JV AND FRESHMAN BASKETBALL

JV BASKETBALL

This year the Boys' JV Basketball team has a new coach, Coach Lindsey. He has played basketball for many years and enjoys working with young boys. He was an Athletic Director for three years and has worked at many summer camps.

Coach Lindsey said, "I felt very welcome when I came to this school, I felt like I belonged from the first day."

He feels that the boys worked very hard and that each individual improved. The boys had a very good attitude. They did what was asked and were always willing. They also received a lot of support from their parents.

Coach Lindsey says it was great being the new coach and he is really looking forward to next season.

## Coach Daniels

Coach Daniels is one of the new additions to the Kimball coaching staff. We were not able to get ahold of him, so we got some information about him from some of the players.

In general, everyone we asked agreed that Coach Daniels is a good addition to the basketball coaching staff. Even though the season did not go as well as expected, everyone put in a good effort.

The team had four wins overall - two of which were against crosstown rival Dondero!!!!

Next year's team will miss the senior talent that's leaving, but there is a strong core for building on to have a great season next year!!!!

# GIRLS' BASKETBALL IMPROVES

## Coach Clouser

Mr. Frank Clouser, the girls' basketball coach, has been working at Kimball for twenty-two years. He has coached girls' basketball for four years. Coach Clouser is forty-six years old, is married and has two children, an eleven year old daughter and an eight year old son.

Coach Clouser played basketball in high school and baseball at Butler University. At Eastern University he received a degree in Physical Education with a minor in Science.

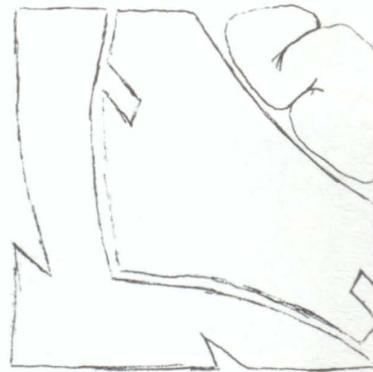

"This year the girls did an outstanding job with sixteen wins setting a new school record," says Coach Clouser.

"The season went very well compared to three wins last year and sixteen this year, and we only have one senior who was on the team last year," he added.

## Cheerleading

"Go Blue and Gold" is something you always hear the Kimball Cheerleaders saying. This year's Varsity Cheerleaders had a big job on their hands trying to raise school spirit, but working with the new school principal, Mr. Neville, made the task a lot easier.

This year's squad has 14 members who have all done a great number of things to support the football, basketball and soccer teams. They plan to do as many school related activities as possible.

One of the most exciting activities was the opportunity to participate in the George Bush rally. The entire squad even got to meet the new President of the United States.

Cheerleaders play a big role in promoting school spirit. They did a great job this year. Lets hope they continue the good work.

# Girls' Softball Coach

## Coach Thomas

Coach Jim Thomas was the softball coach here at Kimball. He is divorced and he has three girls. He got his college education at Michigan State. The team claims he is in his fifties. He is no longer coaching here at Kimball, so we gathered some information from two of the team captains.

"The season went fairly well," says Lisa Seymour, "Coach Thomas knew more about technique than he did about the game."

"He was really nice and funny. He deserved more credit than he got, and he put up with a lot of hassles that the team gave him," says Tina Ronan.

## Coach Yun Shin

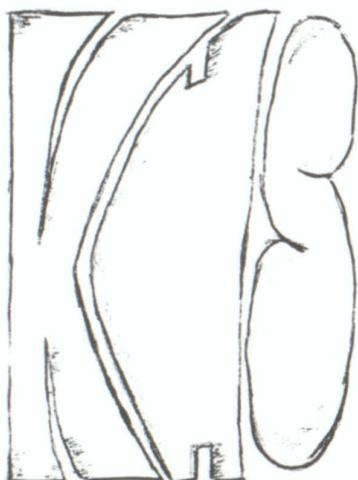

Mr. Yun Shin is a coach for the boys' Junior Varsity Soccer Team. He has been the coach for two seasons. He is twenty-four years old and is engaged. Coach Shin attended Macomb Community College where he majored in science. He also played soccer in high school and college.

"We did very well in spite of their ages. We had a young team with sixteen ninth graders," says Coach Shin.

Coach Shin stated that he was happy with the team's overall and the last three games was a big turnover, because they started to work as a team.

# VARSITY SOCCER TEAM HAS GREAT

## Coach Peterson

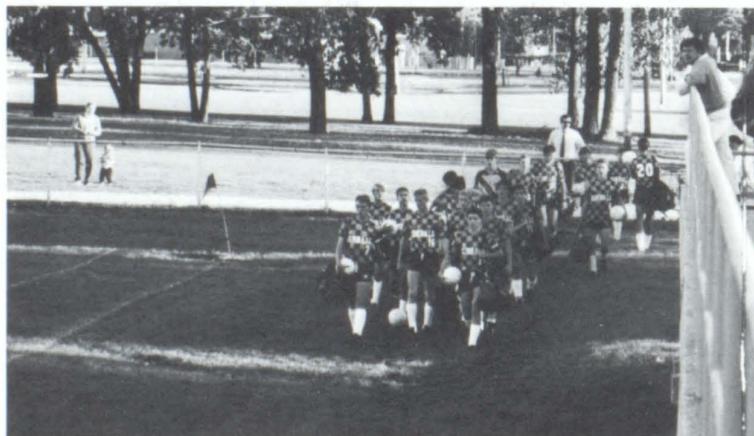

The Kimball boys' varsity soccer team has finally done it. This year they've captured their first SMA championship ever. Maybe it's because the boys have a new head coach, Mr. Bruce Peterson.

We couldn't contact Mr. Peterson so we've asked one of the team's captains his feelings about the season and here's what Tony Nimmoor had to say:

"Mr. Peterson is a very good team motivator. He helped develop a strong feeling of pride and unity between the guys. The best thing about him was that we could communicate with him. He would always give us constructive criticism and also ask that we evaluate how he was doing as our coach. Before the games he would tell us what he thought we needed to do to win, and then he would sit back and let us do our job. I think one of the main reasons we won the SMA this year was because of Mr. Peterson."

## Coach Clark

Clint Clark was the girls' assistant soccer coach for 1987-1988. This year Kimball got a whole new coaching staff which consists of: Head Coach Clint Clark, Assistant Coach Mrs. Siwajek and J.V. Coach Yun Shin.

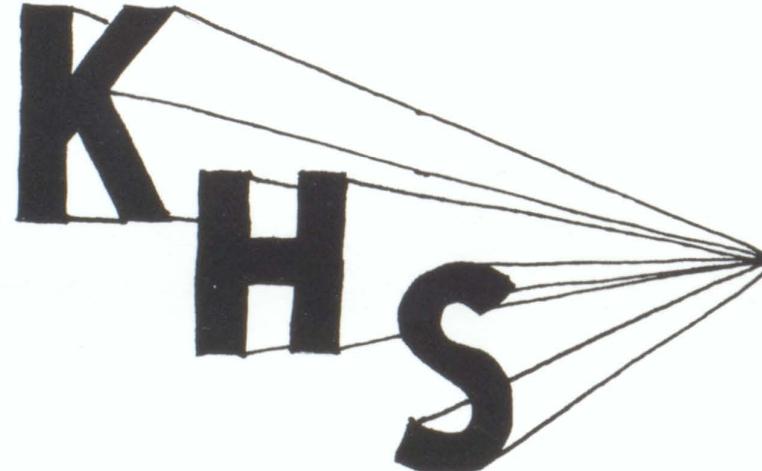

Clint is 22 years old; he is not married and has no children. He graduated from Kimball High School.

Clint owns his own electrical business. In his spare time he referees soccer games at the indoor soccer dome.

When asked his feelings about the girls' team he had this to say, "Last year's team had a lot of potential. I'm really pleased that I got the coaching job for the girls' team this year. Last year's season wasn't the greatest. We beat the teams we should have but we could have done better. Right now I'm coming off of a great season with the boys and I'm hoping to continue it with the girls."

Mary Alice Siwajek successfully clears the ball out of Kimball's defensive end.

Nicole Keisoglou runs back onside after taking a shot on the Dondero goalie.

Molly Williams comes back to help stop the opposing player from getting into Kimball's end.

# BOYS' SWIMMING

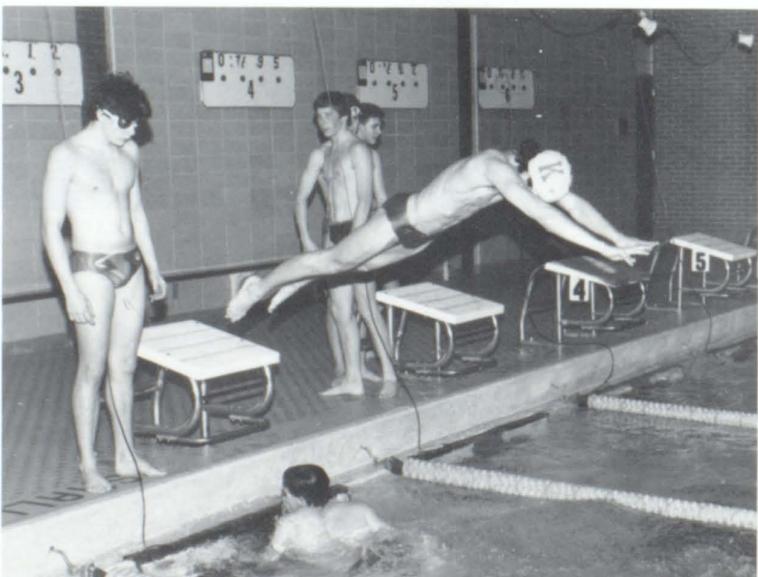

Boys' Swimming Coach: Kristine Thorton.

The 1988-1989 Boys' Swimming Team had a mediocre season. The season opened with a Kimball win of 96 to 61 over Dondero High. The second game of the season against Grosse Pointe North met with the same success with a score of 93 to 61. The fifth game met with a win over Roseville of 79 points. That was the last win. Then the season continued going down-hill. As for the Southeastern Michigan Association, Kimball's Boys' Swimming came out ahead of Southfield and Hazel Park. Team captain, Jason Gessert, came out on top by breaking the SMA record for the 200 yard free style. He is now on his way to the state championships for the 200 and 500 yard freestyle. Congratulations Jason!

## Swim Coaches

The 1988 Girls' Swimming and Diving Team has come through, shining as usual. Starting the season with not so much as a splash against Shrine, (92-73), they shot back to a 9-3 overall, nine wins and three losses, three of which were non-league meets. Each meet was a bundle of suspense, especially when the team's one and only diver, Caprice Herron, was injured and couldn't compete for a good number of meets, including the Kimball vs. Ferndale meet. "They're a great team. We're gonna have to swim our best, and do the best we can; don't expect miracles." That's all Sue Ellis, Head Coach for the girls had to say prior to the meet. Heres, to ya girls!! You pulled off an incredible victory of 88 to 87 and THATS without a diver.

"The whole season was a good one. We had a lot of team spirit," says Ame McCatty, one of the three team captains. Lisa Seymour and Michelle Ruehs are the other two team captains.

Through thick and thin, cold and hot water, the girls made it through the season with fourth overall in the S.M.A. Nice Job Girls!!!

Coach Kevin Friesen has been the boys' varsity tennis coach for six seasons and a hall supervisor for two years. He attended O.C.C. for two years and Ferris State for two years where he earned a degree in physical education. Throughout college he played basketball, and in high school he played both basketball and tennis.

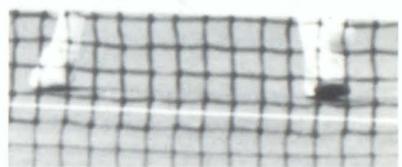

"Last year the team was inexperienced and improved throughout the season. However, this year I feel we are strong in the singles and we will need work on the doubles plays," said Coach Friesen.

# GIRLS' CROSS COUNTRY

Coach Ewell

Coach Ewell has been coaching the Girls' Cross Country team for fourteen years.

This year's team was led by senior captain Kim Sawicki. They won three of their seven meets.

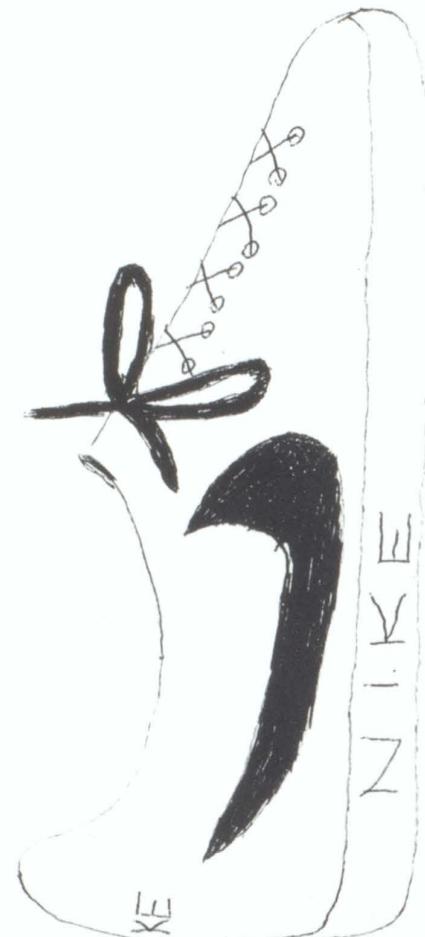

When asked how he felt this year's season went, Coach Ewell had this to say, "This year's team was a little on the inexperienced side. But all in all, they had a decent season. Next year we will have hopes of doing better."

Good Luck Next Year!!!!

## Coach Welsch

Coach Welsch is the boys' coach for the Kimball 1988-1989 cross country season. We tried to get in touch with Coach Welsch but were unsuccessful.

The boys' cross country team was led by Senior Captain John Sheridan.

The boys team had an outstanding season, winning eight meets and losing only one of them. Not too shabby of a record, if you ask me!

All in all the Cross Country season was outstanding, and hopefully they will continue the good work next year.

# YOUNG TRACK TEAM

## Coach Castle

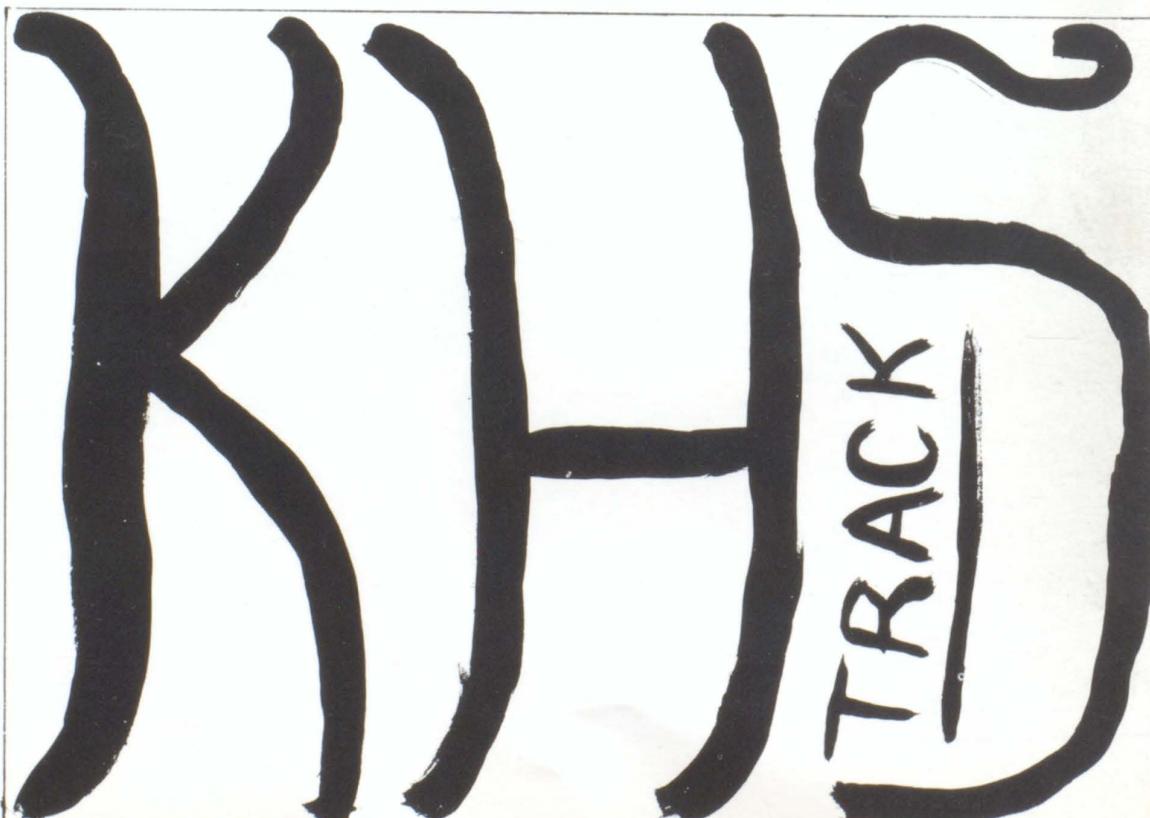

Coach Castle has been working at Kimball for eleven years. He has been the boys' track coach for four years.

This year is Coach Castle's first year teaching. This year he teaches both United States History and Math. And according to many of his students, is doing a fine job in both areas.

Coach Castle went to high school at none other than Kimball High. He attended college at Wayne State University.

Coach Castle is married. He and his wife just this year had their first child, Andrew Weston Castle.

When asked his feelings about the 1987-1988 track season he had this to say: "Last year's team had a lot of possibilities as we were very young. Things didn't work out as they could have. But everybody's back so we're looking for a very positive year."

# Girl's Track Has A Good Time

## Coach Ewell

Coach Ewell is the girls' track coach and has been for fifteen years out of the twenty years that he's been working at Kimball. He is not married and has no kids. Coach Ewell attended Eastern Michigan University and majored in math and physics. He was in track in high school.

"Last year's team was an improvement over the team before and the season went very well," says Coach Ewell.

## Coach Nash

Mr. Nash is the coach of the Girls' Varsity Volleyball Team. He has been coaching volleyball since he came to Kimball in 1977. He feels that this was the best season in three years.

Mr. Nash also feels that next season will be a good one. The team is losing Tina Ronan, their best player, but there are two very strong players who will be returning next season. Mr. Nash is also looking for a lot of participation from the rest of the team.

"This was a fun group to coach, they enjoyed playing and going to tournaments. Each player improved steadily throughout the season," says Coach Nash.

# GYMNASICS TEAM HAS A VERY

## COACH EWELL

Coach Ewell has been working here at Kimball for twenty years. Not only does he teach in the Mathematics department, coach Girls' Cross Country, and Girls' Track, but he also has been coaching Girls' Gymnastics for twelve years.

This year's Kimball team had a great season. The team consisted of one senior, one junior, four sophomores, and thirteen freshman. The team's captain showed a lot of enthusiasm and it has rubbed off on all the underclassmen. So next year's season is hopefully going to go even better.

# The Golf Team Has

Boys' Golf

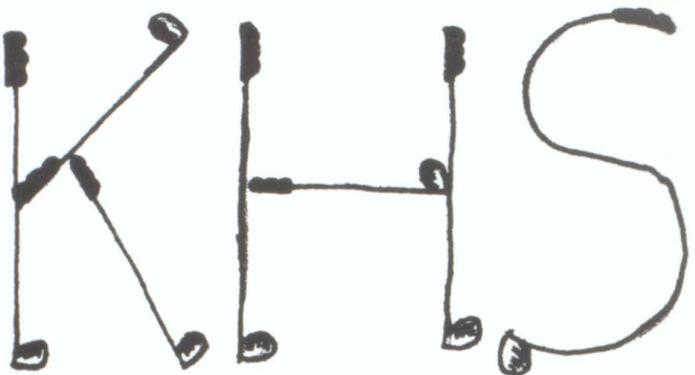

Coach Nash has been coaching golf for two years along with the many other things he does. He feels that this was a good season, especially since the team was so young. It consisted mostly of juniors and sophomores.

Coach Nash thinks that the team had a very good attitude and worked well together. This is why he is looking forward to next season. There will be five seniors and that should make a very strong team.

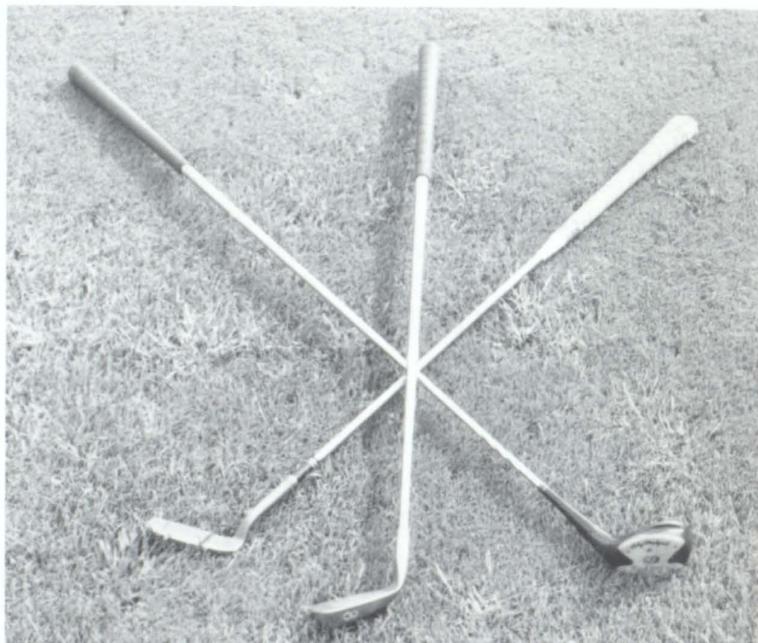

Coach Nash finds it very relaxing to play golf, and plans to play a lot more when he retires.

# SENIORS

This year there were eleven seniors on Roundtable. Five of them were returning members and six were new to Roundtable. Of the five returning four were elected to office. President Jacky Herron, Vice President Katy Gentile, Treasurer Christa Wheaton, and Secretary Margi Manjarres. The fifth returning rep was Adam Bostic.

The six new reps were Tina Farley, Jenny Gellasch, Jason Hill, Kim Sawicki, Eric Stief, and Kelly Wilmowski.

The seniors put forth a great effort in improving Kimball's new spirit and they all worked very hard this year. Congratulations to all of you for your hard work!!!

# SENIOR CLASS OFFICERS

The Senior Class Officers work out the details in senior class activities. It isn't a glamorous job, but through frantic homeroom meetings, phone calls, and running around, our officers try to get things accomplished. Some of the officers' obligations include Mock Elections and Class Symbols Election, organizing all aspects of the Senior Prom.

This year's officers were:  
President - Adam Bostic  
V. President - Vicki Fritzlan  
Treasurer - Zoe Chatas  
Secretary - Dina Love  
And the new advisor Mrs. McClanaghan.

One activity that most seniors look forward to every year has got to be Senior Dress Up Day. This day comes every year at the end of Spirit Week and before Halloween. It's a good time to act like a child again.

Come on admit it guys. You loved Dress Up Day. Don't use that excuse "I did it because Johnny did." It was your opportunity to relive your childhood in school once again. You may have loved seeing others dressed up, too.

Anyway, it's always fun to see all of the different costumes and original ideas. Whether it's a ghost, goblin, playboy bunny, or Rambo spotted strolling down the hall, they're all fun to see. Senior Dress Up Day goes by too fast, though. It spices up the average day. Maybe, we should have a dress up day every week or month? Something like a teacher look alike day and the teachers could look like us? No, maybe not.

Look the point is everyone has a chance to take part in it, so do it! It's fun and is truly a day to remember.

*KNIGHTS*

Adam Kownacki and Janelle Whipple are 1 of the Freshman couples.

These Freshmen enjoy their first Homecoming.

Craig Drake, Laura Ricci, Cathy Coe and Matt Waitkus enjoy themselves even in the rain.

Tom Siwajek and Andrea Bearss are closer than ever!

Julie Sipos lets out a yell when she sees the camera!

Kristi MacKenzie keeps warm in the upper glass hall.

Sarah Gabler and Kristi Clason work happily in the coat room.

Mary Siwajek and Dana Grant are busy selling hot dogs.

Amy Pugh busy out in the hall making up a test.

Molly Williams looks a tiny bit mad at the camera man.

Katy Dolan poses like a model, as she blocks the bright sun.

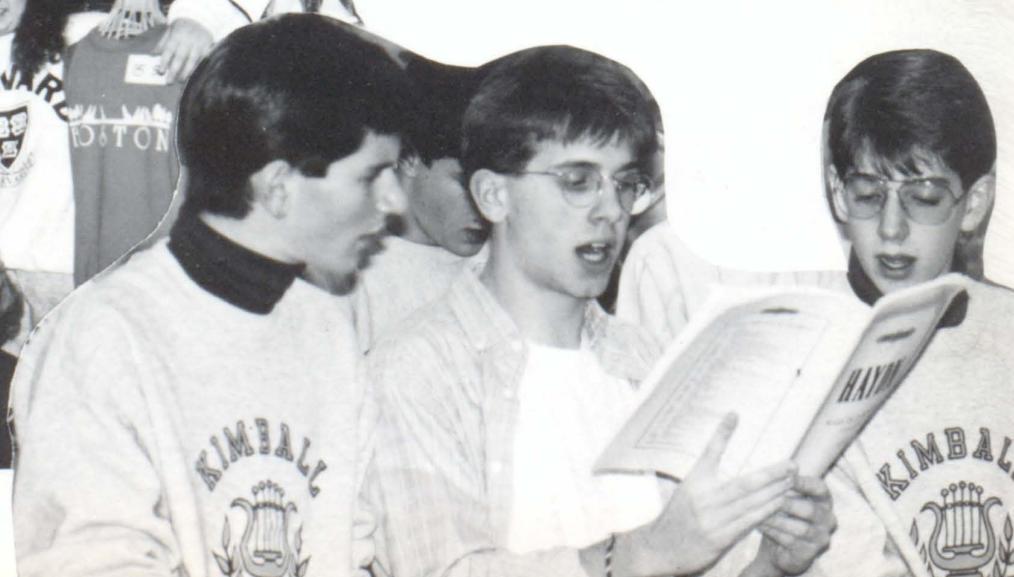

Kelley Arnold studies her math.

Ann McIntosh waits and waits.

KIMBALL HIGH SCHOOL

# SENIOR CLASS

I still don't know what I was waiting for  
 Time was running wild  
 A million dead-end streets and  
 Every time I thought I'd got it made  
 It seemed the taste was not so sweet  
 Then I turned myself to face me  
 But I never caught a glimpse  
 Of how the other must see the faker  
 I'm much too fast to take that test  
 Ch-Ch-Ch-Ch Changes  
 Turn and face the strange  
 Ch-Ch-Ch-Ch Changes  
 I don't want to have to be a richer man  
 Ch-Ch-Ch-Ch Changes  
 Turn and face the strange  
 Ch-Ch-Ch-Ch Changes  
 I just wanted to be a better man  
 Time may change me  
 But I can't trace time  
 I watched the ripples change their size  
 But never leave the stream of warm impermanence  
 And so the days float through my eyes  
 But still the days seem the same  
 And these children that you spit on  
 As they try to change their worlds  
 Are immune to your consultations  
 They're quite aware of what they're going  
 through.

### "Changes"

Un-Un-Ch Changes  
 Don't tell us to grow up out of it  
 Ch-Ch-Ch Changes  
 Turn and face the strange  
 Ch-Ch-Ch Changes  
 Where's your shame you've left us up to  
 our necks in it  
 Time may change me  
 But I can't trace time

Strange fascination  
 Fascinating me  
 Oh changes are takin the face I'm  
 going through  
 Ch-Ch-Ch-Ch Changes  
 Turn and face the strange  
 Ch-Ch-Ch Changes  
 On look out all you rock and rollers  
 Ch-Ch-Ch Changes  
 Turn and face the strange  
 Ch-Ch-Ch Changes  
 Pretty soon now you're going to  
 get old

Time may change me  
 But I can't trace time  
 I said that time may change me  
 But I can't trace time

## THE EDITOR'S PAGE

Nothing at all, excluding the blood of humanity, was quite as "bomb" in my senior year as the Lancer. Sure, there were a few close runner-ups, but the overall feeling of seeing this book FINISHED out did it all. I definitely want to thank Jen and Mary, because without the two of you, I'd still be as disorganized as before. (I'm not much better, but I'm trying!) Thanks to all you guys on staff for working so hard on all the layouts and helping us meet that last deadline. Thanks for inviting Jen and I to use your "humble" abode to get the shipments out, Mrs. Wine. I also must thank Mrs. Miller for her time and dedication spent to get this brand-new staff started. But, most of all, CRAIG DRAKE deserves SO MUCH MONEY for his effort and talent in designing the BEST cover and division pages the Lancer has EVER seen. (And all we can give him is a free book. What a deal.) THANK YOU CRAIG DRAKE!!! And with that . . . I'm outta here!

-Jennifer Lynn Hartman  
Editor-in-Chief

We are finally finished. After months of hard work and long nights, we have finally completed the Lancer: a book made up of memories of this past year. There was a lot of thought put into each page of this year's book and even though there were times I didn't think we would finish, the staff would put in the extra effort to finish the job. I enjoyed working on the book and working with the staff. Most of us walked into this without a clue of what to do, but with a lot of effort, we worked at and finally put the pieces together.

-Jennifer Gray Gellasch  
Layout Editor

LANCER! That dweam within a dweam! It's been quite a year, when everything is said and done (and sent in!) All I can say where is that \*!@# DISK??? From everything to Tuesdays after school (We Want The Nuts!) to rubberband fights, it's been a good year. We've made a lot of friends, done a lot of dumb things, worked many hours and WA-LA!! Out came a yearbook!! Thank you everyone and good luck. I'm outta here!!!!
